GOOD

ProSelect 1/3 and 1/2 HP

Perfect Grind
By Mountain Plumbing

Whether you are in the market for a waste disposer for easy clean-up and reduced waste or to help out the environment by reducing greenhouse gas emissions, having a high quality, high torque unit is the way to go. The Perfect Grind® is an incredible addition to any kitchen because it is so easy to use and its unparalleled quality will last for years to come. All models are designed to fit in areas where space is limited, making these compact units ideal for all kitchens. But don't let their size fool you, these disposers pack a real punch.

ProSelect Disposer Models

ProSelect disposers are a dependable choice for reliable grinding power at a practical price. They **deliver everyday efficiency and durability to kitchens that don't require extra horsepower** - making them a lasting value for homeowners who want performance without added cost.

BETTER

STEALTH 5/8, 3/4, & 1-1/4 HP

Stealth Disposer Models

Stealth disposers provide maximum power in a compact design, freeing up space under the sink. With higher horsepower in a smaller footprint and a Lifetime Warranty, they're **ideal for kitchens that want uncompromising performance with long-term peace of mind**. Includes anti-microbial technology for odor protection.

Batch Feed

Perfect Grind® disposers can also be operated with a batch feed system for added safety and convenience. Activated by a magnetic stopper that seals the sink opening, **batch feed prevents accidents, reduces noise, and eliminates the need for a wall or air switch**.

BEST

PHANTOM Quiet 1 HP

Whisper-Quiet Model

The Phantom™ combines powerful grinding with whisper-quiet performance. **Featuring an advanced brushless DC motor**, it delivers unmatched precision and durability in a single 1-horsepower model. Includes anti-microbial technology for odor protection.

Permanent Magnet Motor Matters

Instant Torque = Less Jams

Unlike the more common induction motor, **permanent magnet motors deliver full torque the moment they're activated, powering through food waste before jams can start.** Instead of struggling with slow starts and stalls, Perfect Grind® disposers break down scraps instantly, keeping your kitchen running smoothly.

Higher RPM = Finer Grind = Less Clogs

With higher RPMs than traditional induction motors, Perfect Grind® disposers create a finer grind that flows easily through plumbing. **Smaller particles mean fewer clogs in your pipes and less food particle buildup in the disposer, reducing common sources of odors.** Both advantages leave your sink fresher and your pipes clearer.

More Grinding Capability

Chicken Bones

Banana Peels

Melon Rinds

Nut Shells

Vegetable Scraps

Meat Scraps

Corn on the Cob

Fruit Pits

Apple Cores

Coffee Grounds

Fish Bones

Egg Shells

PERFECT GRIND®

ProSelect

ProSelect disposers are built to deliver everyday reliability and performance at a practical price. Designed with the same permanent magnet motor technology that defines every Perfect Grind® disposer, ProSelect models give homeowners confidence that food waste will be handled quickly, cleanly, and efficiently.

Why Choose ProSelect?

Reliable Power – Proven permanent magnet motors with instant torque for fewer jams.

Everyday Efficiency – High RPMs for a finer grind, helping reduce clogs and odors.

Value-Driven – Essential performance without added extras, keeping the focus on what matters most.

Best Fit For:

Kitchens that don't require the extra horsepower of larger disposers but still need dependable, everyday performance.

Budget-conscious remodels or rental properties where value and durability are priorities.

Induction motor disposer owners looking for a performance upgrade to a permanent magnet disposer.

Rubber Splashguard

STEALTH-SPLASHGUARD

This is a direct replacement splashguard for Mountain Plumbing's Perfect Grind® waste disposer models with a 3-bolt mount.

Designed to restore performance and help minimize splashback in waste disposer installations because of proper function and fit.

PERFECT GRIND®

STEALTH

STEALTH disposers deliver maximum grinding power in a compact design that saves valuable space under the sink. Built with the same permanent magnet motor technology as all Perfect Grind® disposers, STEALTH models stand out by offering higher horsepower in a smaller footprint – ideal for kitchens where storage space is at a premium.

Why Choose STEALTH?

Compact Power – Higher horsepower in a smaller unit, giving you more cabinet space.

Efficient Grinding – High RPMs create a finer grind for smoother operation and reduced clogs.

Lifetime Confidence – Backed by a Lifetime Warranty, STEALTH is built for performance that lasts.

Odor Protection – Anti-microbial technology protects disposer from unwanted odors.

Best Fit For:

Kitchens that desire both powerful performance and maximum storage space beneath the sink, making STEALTH the ideal solution.

Homeowners who need higher horsepower for demanding food waste but don't want a bulky disposer.

Anyone looking for a long-term solution backed by a Lifetime Warranty.

QUIET WASTE DISPOSER

PHANTOM1™

Phantom1™ is the pinnacle of food waste disposers, engineered for those who demand more from their homes. Featuring a **brushless DC permanent magnet motor**, Phantom™ delivers the most powerful and refined grinding experience – with whisper-quiet operation that disappears into the background of luxury living. Unlike standard disposers, Phantom1™ is available in a **single, uncompromising 1-horsepower model**.

Features

Whisper-Quiet Design – Virtually silent operation.

Brushless DC Motor – The most advanced motor technology in disposers today.

Uncompromising Power – A single 1-horsepower model engineered to excel.

Auto Reverse Dejamming – Feature where disposer tries to unjam itself before needing human intervention.

Odor Protection – Anti-microbial technology protects disposer from unwanted odors.

Best Fit For:

Luxury kitchens that demand silence, performance, and design refinement beneath their sink – making Phantom1™ the ideal choice.

Homeowners seeking optimal RPM performance that adjusts power for efficient, low-noise handling of varied food waste – starting 1600 RPM increases to 3400 under load until turned off.

- Safe for Properly Sized Septic Tanks
- Batch Feed Compatible
- Showroom Exclusive

LIFETIME WARRANTY

**Disappears into Silence.
Stands Apart in Performance.**

View Full Product Feature Page

What is a Batch Feed Disposer?

Batch Feed is an alternative way to operate a disposer without the need for a wall switch or an air switch. Instead of relying on external controls, the disposer is activated by a special magnetic stopper that fits into the sink opening. Once the stopper is engaged, the disposer runs safely and efficiently, and it automatically shuts off when the stopper is removed. This design ensures that the disposer only operates when the sink is sealed, adding both safety and convenience to everyday kitchen use.

Why Choose a Batch Feed Disposer?

Added Safety - Disposer won't run unless the stopper is engaged, making it a great option for families.

No Switch Needed - Perfect for kitchens where wiring for a wall switch or air switch isn't practical.

Quieter Operation - The stopper helps reduce noise while the disposer runs.

Complete Kits Available - Choose a kit with disposer included for an all-in-one solution.

Why Choose a Batch Feed Disposer?

They're especially popular in homes with children, apartments or condos where adding a wall switch isn't practical, and remodels where minimizing electrical work is a priority.

The built-in activation system of the Batch Feed also makes this a great choice for anyone who prefers a quieter kitchen and a cleaner, more streamlined sink area.

Batch Feed Waste Disposer System Kit

MT999BF/***

- Converts a continuous feed disposer to batch feed with no rewiring needed
- For use with Mountain Plumbing Perfect Grind® disposers only

MOUNTAIN PLUMBING

Complete Sink Packages

Mountain Plumbing Complete Sink Packages take the guesswork out of kitchen upgrades by providing every essential component in one coordinated set. Instead of piecing together a disposer, strainer, stopper, and trim separately, these packages ensure that all water appliances and parts are designed to work seamlessly together.

Available in multiple finishes, each package combines performance with a polished appearance that ties the entire sink area together. Complete Sink Packages make installation simpler, faster, and more reliable – giving homeowners and installers confidence that every detail has been covered.

STEALTHRAP + STEALTH DISPOSER

Maximize Your Under Sink Space

Ensure **maximum storage space** inside your kitchen cabinet.

Space saving design of **STEALTH Waste disposer is 40% Smaller.**

More room for essentials like water filters, hot tanks, and cleaning supplies.

Space Saving Trap

STEALTHTRAP

How It Works:

- Turn the STEALTH Disposer dishwasher discharge elbow to face the back of the sink.
- Connect the dishwasher elbow to the horizontal tube to run to back of cabinet.
- Connect vertical tube to connect to p-trap and connect to rough-in.
- Ensures maximum storage space.

Air Switch Styles

Round - The classic shape, clean and versatile for any kitchen design.

Square - A modern alternative with sharper lines to match contemporary hardware.

Flush - Installs nearly level with the countertop or sink deck for a sleek, minimalist appearance.

Raised - Sits slightly above the surface, offering a more tactile feel and easy activation.

Knurled - Features a textured edge detail that adds grip and a distinctive decorative look.

Traditional - Timeless button style that coordinates well with classic faucet and fixture designs.

MOUNTAIN PLUMBING

Air Switches

Air switches are a safe and stylish way to operate your food waste disposer. Instead of a wall switch that requires electrical wiring near water, an air switch uses a puff of air through tubing to activate the disposer. This design keeps electrical components away from the sink, making the kitchen safer and disposer use more convenient.

Mountain Plumbing air switches are available in multiple of finishes and button styles, allowing you to coordinate perfectly with faucets, sinks, and strainers. Easy to install and dependable in daily use, they bring both peace of mind and a polished look to any kitchen.

Disposer Air Switch Assembly - Direct Plug-In Box (No Button)

MT951/BOX

Mountain Plumbing's Direct Plug-In air switch box and air hose. This kit includes just the switch box and air hose for use with a Mountain Plumbing Classic or Deluxe air switch. This product is ETL Approved.

Disposer Air Switch Assembly - Freedom Mount Box (No Button)

MT953/BOX

Mountain Plumbing's Freedom Mount air switch box and air hose. This kit includes just the switch box and air hose for use with a Mountain Plumbing Classic or Deluxe air switch. This product is ETL Approved.

Mountain Plumbing's "Classic" air switch provides safe, convenient disposer activation. No wet hands fear when turning on disposer. Perfect for island or other damp environment installations!

Round "Classic" Waste Disposer Air Switch with Direct Plug-In

MT951

For use with ALL continuous feed waste disposers with attached power cords. When disposer is operating, the other plug will not have power.
