NEW ULTRA DURABLE CERAKOTE® MATTE BLACK & OIL RUBBED BRONZE

What is it?

Cerakote® is an ultra-durable ceramic finish ideal for kitchen and bath fixtures with unmatched resistance to all household and commercial cleaners.

When is it available?

Cerakote® Matte Black (MBC) and Cerakote® Oil Rubbed Bronze (ORBC) are available now on most every product available in Matte Black (MB) or Oil Rubbed Bronze (ORB).

What is the cost?

Cerakote® Matte Black (MBC) and Cerakote® Oil Rubbed Bronze (ORBC) will be the same price as all Mountain Plumbing Group 1 Finishes.

Does it have a warranty?

Yes, all Cerakote® Matte Black (MBC) and Cerakote® Oil Rubbed Bronze (ORBC) products come with a Lifetime Warranty on the finish.

Please Note: Finishes shown on this page are a printed representation of the actual finishes we offer. Due to the printing process there is a slight variation between the printed samples shown here and how they appear on the actual product.

2026 Finish Matching Guide

Mountain Plumbing Products offers a wide selection of beautiful and durable finishes utilizing standard industry processes such as: electroplating, powder coating, and PVD (physical vapor deposition). A reasonable degree of color/finish variation can be expected during production line application. Please use the following charts when matching Mountain Plumbing finishes to other manufacturers' finishes.

MTWHF-PRE
PRE FILTER

Whole House Filter & Pre-Filter

Enjoy cleaner, better water throughout your entire home. The Mountain Pure® Whole House Filter uses advanced triple-action technology to remove sediment, reduce chlorine, and prevent scale – while preserving healthy minerals. For areas with high-sediment water, pair it with the Pre-Filter, which captures particles down to 5 microns and protects the main filter for longer life and better performance.

MOUNTAIN RESERVE

— COLLECTION —

Where Luxury Meets Functionality

Born from nearly three decades of precision engineering, Mountain Reserve represents the pinnacle of performance, design, and detail. Every piece in this collection is crafted for those who appreciate the art of entertaining. Created for the spaces where people gather, the Mountain Reserve transforms utility into experience. Each system delivers intuitive control, enduring craftsmanship, and a visual signature that complements any interior design. From precision water systems and glass chillers to advanced heating and rinsing solutions, each product delivers user-friendly operation and instant performance — designed to look as exceptional as it performs.

Showroom Exclusive

HydraOne™

5-in-1 Water System

Regular Tap Water: Standard water flow for everyday use, easily accessed from the same sleek HydraOne™ faucet.

Filtered Instant Hot Water (with Child Lock): Delivers near-boiling, filtered water instantly - ideal for tea, coffee, and cooking, with a built-in safety lock for peace of mind.

Filtered Ambient Water: Fresh, clean water at room temperature, perfect for drinking or quick rinsing without waiting or waste.

Filtered Chilled Water: Crisp, cold refreshment on demand — filtered and cooled for the perfect sip, straight from the faucet.

Filtered Sparkling Water: Enjoy restaurant-quality sparkling water anytime. Infused with CO2 for effervescent refreshment at the touch of a button.

CO2 Cylinder & Leak Detector Included

GOOD

ProSelect 1/3 and 1/2 HP

Perfect Grind
By Mountain Plumbing

Whether you are in the market for a waste disposer for easy clean-up and reduced waste or to help out the environment by reducing greenhouse gas emissions, having a high quality, high torque unit is the way to go. The Perfect Grind® is an incredible addition to any kitchen because it is so easy to use and its unparalleled quality will last for years to come. All models are designed to fit in areas where space is limited, making these compact units ideal for all kitchens. But don't let their size fool you, these disposers pack a real punch.

ProSelect Disposer Models

ProSelect disposers are a dependable choice for reliable grinding power at a practical price. They **deliver everyday efficiency and durability to kitchens that don't require extra horsepower** - making them a lasting value for homeowners who want performance without added cost.

BETTER

STEALTH 5/8, 3/4, & 1-1/4 HP

Stealth Disposer Models

Stealth disposers provide maximum power in a compact design, freeing up space under the sink. With higher horsepower in a smaller footprint and a Lifetime Warranty, they're **ideal for kitchens that want uncompromising performance with long-term peace of mind**. Includes anti-microbial technology for odor protection.

Batch Feed

Perfect Grind® disposers can also be operated with a batch feed system for added safety and convenience. Activated by a magnetic stopper that seals the sink opening, **batch feed prevents accidents, reduces noise, and eliminates the need for a wall or air switch**.

BEST

PHANTOM Quiet 1 HP

Whisper-Quiet Model

The Phantom™ combines powerful grinding with whisper-quiet performance. **Featuring an advanced brushless DC motor**, it delivers unmatched precision and durability in a single 1-horsepower model. Includes anti-microbial technology for odor protection.

Permanent Magnet Motor Matters

Instant Torque = Less Jams

Unlike the more common induction motor, **permanent magnet motors deliver full torque the moment they're activated, powering through food waste before jams can start.** Instead of struggling with slow starts and stalls, Perfect Grind® disposers break down scraps instantly, keeping your kitchen running smoothly.

Higher RPM = Finer Grind = Less Clogs

With higher RPMs than traditional induction motors, Perfect Grind® disposers create a finer grind that flows easily through plumbing. **Smaller particles mean fewer clogs in your pipes and less food particle buildup in the disposer, reducing common sources of odors.** Both advantages leave your sink fresher and your pipes clearer.

More Grinding Capability

Chicken Bones

Banana Peels

Melon Rinds

Nut Shells

Vegetable Scraps

Meat Scraps

Corn on the Cob

Fruit Pits

Apple Cores

Coffee Grounds

Fish Bones

Egg Shells

PERFECT GRIND®

ProSelect

ProSelect disposers are built to deliver everyday reliability and performance at a practical price. Designed with the same permanent magnet motor technology that defines every Perfect Grind® disposer, ProSelect models give homeowners confidence that food waste will be handled quickly, cleanly, and efficiently.

Why Choose ProSelect?

Reliable Power – Proven permanent magnet motors with instant torque for fewer jams.

Everyday Efficiency – High RPMs for a finer grind, helping reduce clogs and odors.

Value-Driven – Essential performance without added extras, keeping the focus on what matters most.

Best Fit For:

Kitchens that don't require the extra horsepower of larger disposers but still need dependable, everyday performance.

Budget-conscious remodels or rental properties where value and durability are priorities.

Induction motor disposer owners looking for a performance upgrade to a permanent magnet disposer.

Rubber Splashguard

STEALTH-SPLASHGUARD

This is a direct replacement splashguard for Mountain Plumbing's Perfect Grind® waste disposer models with a 3-bolt mount.

Designed to restore performance and help minimize splashback in waste disposer installations because of proper function and fit.

PERFECT GRIND®

STEALTH

STEALTH disposers deliver maximum grinding power in a compact design that saves valuable space under the sink. Built with the same permanent magnet motor technology as all Perfect Grind® disposers, STEALTH models stand out by offering higher horsepower in a smaller footprint – ideal for kitchens where storage space is at a premium.

Why Choose STEALTH?

Compact Power – Higher horsepower in a smaller unit, giving you more cabinet space.

Efficient Grinding – High RPMs create a finer grind for smoother operation and reduced clogs.

Lifetime Confidence – Backed by a Lifetime Warranty, STEALTH is built for performance that lasts.

Odor Protection – Anti-microbial technology protects disposer from unwanted odors.

Best Fit For:

Kitchens that desire both powerful performance and maximum storage space beneath the sink, making STEALTH the ideal solution.

Homeowners who need higher horsepower for demanding food waste but don't want a bulky disposer.

Anyone looking for a long-term solution backed by a Lifetime Warranty.

QUIET WASTE DISPOSER

PHANTOM1™

Phantom1™ is the pinnacle of food waste disposers, engineered for those who demand more from their homes. Featuring a **brushless DC permanent magnet motor**, Phantom™ delivers the most powerful and refined grinding experience – with whisper-quiet operation that disappears into the background of luxury living. Unlike standard disposers, Phantom1™ is available in a **single, uncompromising 1-horsepower model**.

Features

Whisper-Quiet Design – Virtually silent operation.

Brushless DC Motor – The most advanced motor technology in disposers today.

Uncompromising Power – A single 1-horsepower model engineered to excel.

Auto Reverse Dejamming – Feature where disposer tries to unjam itself before needing human intervention.

Odor Protection – Anti-microbial technology protects disposer from unwanted odors.

Best Fit For:

Luxury kitchens that demand silence, performance, and design refinement beneath their sink – making Phantom1™ the ideal choice.

Homeowners seeking optimal RPM performance that adjusts power for efficient, low-noise handling of varied food waste – starting 1600 RPM increases to 3400 under load until turned off.

1 HP Phantom1™ Waste Disposer

PHANTOM1

Features:

- Increases RPM when Resistance is Detected (1600/3400 RPM)
- Continuous Feed
- 1 HP
- 110v
- 1.8 Amps
- 11.8 lbs
- 11-3/8" Tall X 7-13-16" Wide
- Safe for Properly Sized Septic Tanks
- Batch Feed Compatible
- Showroom Exclusive

LIFETIME WARRANTY

**Disappears into Silence.
Stands Apart in Performance.**

View Full Product Feature Page

What is a Batch Feed Disposer?

Batch Feed is an alternative way to operate a disposer without the need for a wall switch or an air switch. Instead of relying on external controls, the disposer is activated by a special magnetic stopper that fits into the sink opening. Once the stopper is engaged, the disposer runs safely and efficiently, and it automatically shuts off when the stopper is removed. This design ensures that the disposer only operates when the sink is sealed, adding both safety and convenience to everyday kitchen use.

Why Choose a Batch Feed Disposer?

Added Safety - Disposer won't run unless the stopper is engaged, making it a great option for families.

No Switch Needed - Perfect for kitchens where wiring for a wall switch or air switch isn't practical.

Quieter Operation - The stopper helps reduce noise while the disposer runs.

Complete Kits Available - Choose a kit with disposer included for an all-in-one solution.

Why Choose a Batch Feed Disposer?

They're especially popular in homes with children, apartments or condos where adding a wall switch isn't practical, and remodels where minimizing electrical work is a priority.

The built-in activation system of the Batch Feed also makes this a great choice for anyone who prefers a quieter kitchen and a cleaner, more streamlined sink area.

Batch Feed Waste Disposer System Kit

MT999BF/***

- Converts a continuous feed disposer to batch feed with no rewiring needed
- For use with Mountain Plumbing Perfect Grind® disposers only
- Dual Functionality: Can be used as a normal strainer basket when disposer is not in use
- Fully plated stainless steel strainer basket and sink flange
- Fits maximum sink thickness of 13/16"
- ETL Approved

Batch Feed Waste Disposer System Kit with 3-Bolt Mount 3/4 HP Disposer

MT777BF/***

- MT999BF/*** Kit converts a continuous feed disposer to batch feed with no rewiring needed
- Includes 3-Bolt Mount 3/4 HP STEALTH750 Disposer

MOUNTAIN PLUMBING

Complete Sink Packages

Mountain Plumbing Complete Sink Packages take the guesswork out of kitchen upgrades by providing every essential component in one coordinated set. Instead of piecing together a disposer, strainer, stopper, and trim separately, these packages ensure that all water appliances and parts are designed to work seamlessly together.

Available in multiple finishes, each package combines performance with a polished appearance that ties the entire sink area together. Complete Sink Packages make installation simpler, faster, and more reliable – giving homeowners and installers confidence that every detail has been covered.

STEALTHRAP + STEALTH DISPOSER

Maximize Your Under Sink Space

Ensure **maximum storage space** inside your kitchen cabinet.

Space saving design of **STEALTH Waste disposer is 40% Smaller.**

More room for essentials like water filters, hot tanks, and cleaning supplies.

Space Saving Trap

STEALTHTRAP

How It Works:

- Turn the STEALTH Disposer dishwasher discharge elbow to face the back of the sink.
- Connect the dishwasher elbow to the horizontal tube to run to back of cabinet.
- Connect vertical tube to connect to p-trap and connect to rough-in.
- Ensures maximum storage space.

Air Switch Styles

Round - The classic shape, clean and versatile for any kitchen design.

Square - A modern alternative with sharper lines to match contemporary hardware.

Flush - Installs nearly level with the countertop or sink deck for a sleek, minimalist appearance.

Raised - Sits slightly above the surface, offering a more tactile feel and easy activation.

Knurled - Features a textured edge detail that adds grip and a distinctive decorative look.

Traditional - Timeless button style that coordinates well with classic faucet and fixture designs.

MOUNTAIN PLUMBING

Air Switches

Air switches are a safe and stylish way to operate your food waste disposer. Instead of a wall switch that requires electrical wiring near water, an air switch uses a puff of air through tubing to activate the disposer. This design keeps electrical components away from the sink, making the kitchen safer and disposer use more convenient.

Mountain Plumbing air switches are available in multiple of finishes and button styles, allowing you to coordinate perfectly with faucets, sinks, and strainers. Easy to install and dependable in daily use, they bring both peace of mind and a polished look to any kitchen.

Disposer Air Switch Assembly - Direct Plug-In Box (No Button)

MT951/BOX

Mountain Plumbing's Direct Plug-In air switch box and air hose. This kit includes just the switch box and air hose for use with a Mountain Plumbing Classic or Deluxe air switch. This product is ETL Approved.

Disposer Air Switch Assembly - Freedom Mount Box (No Button)

MT953/BOX

Mountain Plumbing's Freedom Mount air switch box and air hose. This kit includes just the switch box and air hose for use with a Mountain Plumbing Classic or Deluxe air switch. This product is ETL Approved.

Mountain Plumbing's "Classic" air switch provides safe, convenient disposer activation. No wet hands fear when turning on disposer. Perfect for island or other damp environment installations!

Round "Classic" Waste Disposer Air Switch with Direct Plug-In

MT951

For use with ALL continuous feed waste disposers with attached power cords. When disposer is operating, the other plug will not have power.

- Round Style Push Button with 1-3/8" Mounting Hole
- Fits 1-1/2" Thick Deck
- No Tools Required for Installation
- Air Actuated
- ETL Approved

Round "Classic" Waste Disposer Air Switch with Freedom Mount

MT953

For use with ALL continuous feed waste disposers with attached power cords. Mounts on cabinet wall and plugs directly into receptacle.

- Round Style Push Button with 1-3/8" Mounting Hole
- Freedom to mount anywhere with attached cord
- Fits 1-1/2" Thick Deck
- No Tools Required for Installation
- Air Actuated
- ETL Approved

Replacement Round "Classic" Waste Disposer Air Switch

MT955

For use with ALL continuous feed waste disposers. Round Style Push Button with 1-3/8" mounting hole.

- Fits 1-1/2" Thick Deck
- No Tools Required for Installation
- Air Actuated

Replacement air switch for MT951, MT953, Insinkerator, and Franke push buttons.

Mountain Plumbing's "Deluxe" Flush & Raised Round Air Switches provide safe, convenient disposer activation. No wet hands fear when turning on disposer. Perfect for island or other damp environment installations!

Round "Deluxe" Flush Waste Disposer Air Switch with Freedom Mount

MT957

For use with ALL continuous feed waste disposers with attached power cords.

Box mounts on cabinet wall and plugs directly into outlet. When disposer is operating, the other plug will not have power.

- Round Flush style button with 1-3/8" mounting hole
- Freedom to mount box anywhere
- Fits up to 2" thick deck
- Solid brass construction
- No tools required for installation
- Air actuated
- ETL Approved

Round "Deluxe" Raised Waste Disposer Air Switch with Freedom Mount

MT957R

For use with ALL continuous feed waste disposers with attached power cords.

Box mounts on cabinet wall and plugs directly into outlet. When disposer is operating, the other plug will not have power.

- Round Raised style button with 1-3/8" mounting hole
- Freedom to mount box anywhere
- Fits up to 2" thick deck
- Solid brass construction
- No tools required for installation
- Air actuated
- ETL Approved

Round Replacement "Deluxe" Flush Waste Disposer Air Switch Button

MT958

Replacement air switch for Mountain Plumbing, Insinkerator, Franke, Cal Faucets, West Brass, Brasstech and Jaclo push buttons.

Round Replacement "Deluxe" Raised Waste Disposer Air Switch Button

MT958R

Replacement air switch for Mountain Plumbing, Insinkerator, Franke, Cal Faucets, West Brass, Brasstech and Jaclo push buttons.

Mountain Plumbing's "Deluxe" Flush & Raised Square Air Switches provide safe, convenient disposer activation. No wet hands fear when turning on disposer. Perfect for island or other damp environment installations!

MOUNTAIN PLUMBING

Sink Strainers

Mountain Plumbing sink strainers combine dependable function with refined design. An essential part of every kitchen, strainers protect your plumbing by preventing food and debris from entering the drain, all while offering a polished look at the sink.

Available in a wide range of styles and finishes, they can be perfectly matched to your faucet, disposer trim, and other accessories for a seamless appearance. Durable materials and thoughtful engineering ensure long-lasting performance, making the sink strainer a small detail that delivers a big impact in both style and function.

Classic - 3-1/2" Deluxe Stemball Kitchen Sink Strainer

MT300

Stainless Steel Flange and Strainer features a stainless steel spring-loaded center post.

- Polypropylene body
- Fits standard sink drain openings that measure 3-1/2" to 4" in diameter
- Can fit sinks up to 1-3/16" thick. Sinks thicker than this will require BRBOLT/90 Extension Screw

3-1/2" Deluxe Stemball Kitchen Sink Strainer - Basket Only

MT300BSK

Stainless Steel Strainer Basket features a stainless steel spring-loaded center post.

- This is the strainer basket only and does not include the flange.

Extension Screw

BRBOLT/90

It measures 3.5" and is for the MT300, MT115, BWSTU, and BWSTUG.

3-1/2" Deluxe All Metal Kitchen Sink Strainer

MT303

Stainless Steel Flange, Strainer, and Body features a stainless steel spring-loaded center post.

- All Stainless Steel Body
- Fits standard sink drain openings that measure 3-1/2" to 4" in diameter

***NOTE: This item is not available in the "Brass" Finishes.**

Contemporary - 3-1/2" Deluxe Stemball Kitchen Sink Strainer

MT310

Stainless Steel Flange and Strainer features a stainless steel spring-loaded center post.

- Stainless steel body with deep cup/long shank design allows for easy installation on both standard and thicker sinks: varying thicknesses from stainless steel sinks up to thicker granite or fireclay sinks
- Brass tail piece nut
- Fits standard sink drain openings that measure 3-1/2" to 4" in diameter

Traditional - 3-1/2" Duo Basket Strainer for Kitchen Sink

MT8799

Stainless steel strainer basket and brass flange features a lift and lock stopper design that seals tightly.

- Brass drain body with brass locking ring and tail piece nut
- Can only fit sinks 7/8" thick
- Fits standard sink drain openings that measure 3-1/2" to 4" in diameter

3-in-1 - 3-1/2" Kitchen Sink Strainer with Stopper Lid and Lift-Out Basket

MT115

Stainless steel flange features a secure lid to stop water and a lift-out basket to collect waste.

- Heavy duty stainless steel stopper lid
- Stainless steel lift-out basket which is plated to match
- Polypropylene body
- Can fit sinks up to 1-3/16" thick. Sinks thicker than this will require BRBOLT/90 Extension Screw
- Fits standard sink drain openings that measure 3-1/2" to 4" in diameter

2-1/2" Deluxe Stemball Bar Sink Strainer

MT700

A bar or prep sink strainer patterned after the popular MT300, the 2-1/2" Stainless Steel Flange and Strainer features spring-loaded center post.

- Polypropylene Body
- Stainless Steel Spring-Loaded Center Post
- Fits a 2" Drain Opening

***NOTE: This item is not available in the "Brass" Finishes.**

2-1/2" Brass Bar/Prep Strainer with Lift-Out Basket

MT710

2-1/2" standard brass bar or food prep sink strainer.

- Made of Brass
- 2" Deep Removeable Strainer Basket
- Fits a 2" Drain Opening

This generous 2" deep removable strainer basket catches any debris. Does not have sealing function to hold water in sink.

Plastic Molded 3-1/2" Basket Strainer

BWSTU

This plastic molded 3-1/2" basket strainer comes with a stainless steel spring-loaded center post. Comes in multiple colors to match the color of your sink.

Kitchen sink strainer installs from above the sink. Center threaded ferrule draws top and bottom flanges together and will seal water in sink. No need to reach "hard-to-find" nut under sink - it's easy to install!

Decorative Plastic Universal Basket Strainer for Granite Sinks

BWSTUG

This plastic molded 3-1/2" basket strainer comes with a stainless steel spring-loaded center post. Comes in multiple colors to match the color of your sink.

Kitchen sink strainer installs from above the sink. Center threaded ferrule draws top and bottom flanges together and will seal water in sink. No need to reach "hard-to-find" nut under sink - it's easy to install!

Understanding Sink Strainers

Sink strainers may be small, but they are one of the hardest-working parts of your kitchen. Installed directly in the sink drain, they act as the first line of defense against clogs by catching food scraps and debris before they enter the plumbing system. Mountain offers a range of strainers designed for both standard sinks and disposer applications, with options that balance durability, ease of cleaning, and everyday performance. Choosing the right strainer ensures your sink works reliably and stays looking clean.

Understanding Disposer Trims

When paired with a disposer, trims provide a clean, finished edge around the sink opening. More than just cosmetic, disposer trims help conceal the rough edges of the disposer connection while creating a smooth surface that coordinates with your faucet, accessories, and hardware. Mountain disposer trims are available in a wide selection of designs and finishes, making it easy to turn a functional component into a subtle design accent.

How to Choose Your Finish

Finishes tie the entire sink area together, adding both durability and style. Mountain offers PVD-coated finishes for maximum resistance to scratches and tarnish, as well as traditional plated finishes or molded plastic with a variety of color options. Match your strainer or disposer trim to the faucet, air switch, or other hardware to create a cohesive look that lasts.

MOUNTAIN PLUMBING

Disposer Trims

Mountain Plumbing disposer trims elevate the look of your sink while providing a precise fit for your waste disposer. Designed to replace the standard flange, these trims give you the ability to coordinate every detail of your kitchen with a wide selection of finishes.

More than just a decorative accent, disposer trims are engineered for durability and easy installation, ensuring long-term performance alongside a seamless design. By matching your disposer trim to your faucet, sink strainer, and accessories, you create a polished, unified look that enhances both style and function at the kitchen sink.

Classic - Complete Stopper & Strainer Unit Waste Disposer Trim

MT200EV

The MT200EV is a complete strainer with collar that is compatible with continuous feed models only.

This stopper/strainer unit works with the following waste disposer models:

- Insinkerator (ISE) - old & new models
- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Perfect Grind® 3-Bolt Mount
- For disposers with 3-3/8" I.D. and 3 bolt mounting

Classic - Complete Stopper & Strainer Unit Waste Disposer Trim - Extended Flange

MT202

The MT202 is a complete strainer with collar that is compatible with continuous feed models only.

This stopper/strainer unit works with the same waste disposer models as the MT200EV:

Now matching waste disposer trim is available for use with your thicker fireclay sink.

- Disposer flange with extended throat for thicker sink installations
- Fits sinks up to 1-3/4" thick
- For disposer with 3-3/8" I.D. and 3 bolt mounting

Traditional - Complete Stopper & Strainer Unit Waste Disposer Trim - Extended Flange

MT7799EV

The MT7799EV is a complete strainer with collar that is compatible with continuous feed models only.

This basket stopper style is only available in the extended flange and may be installed on thinner sinks with the use of the 3 bolts provided.

This stopper/strainer unit works with the following waste disposer models:

- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Perfect Grind® 3-Bolt Mount
- For disposers with 3-3/8" I.D. and 3 bolt mounting

Contemporary - Complete Stopper & Strainer Unit Waste Disposer Trim

MT210EV

The MT210EV is a complete strainer with collar that is compatible with continuous feed models only.

This stopper/strainer unit works with the following waste disposer models:

- Insinkerator (ISE) - old & new models
- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Perfect Grind® 3-Bolt Mount
- For disposers with 3-3/8" I.D. and 3 bolt mounting

Contemporary - Complete Stopper & Strainer Unit Waste Disposer Trim - Extended Flange

MT212EV

The MT212EV is a complete strainer with collar that is compatible with continuous feed models only.

This stopper/strainer unit works with the same waste disposer models as MT210EV.

Now matching waste disposer trim is available for use with your thicker fireclay sink

- Disposer flange with extended throat for thicker sink installations
- Fits sinks up to 1-3/4" thick
- For disposer with 3-3/8" I.D. and 3 bolt mounting

Plastic Molded Waste Disposer Trim Collar with Matching Stopper

BWDUF

Waste disposer trim in decorative colors to match your sink. Includes both flange trim and stopper-strainer. Will work with ISE Evolution disposer series and 3-Bolt Mount Disposers.

Unit is installed into existing flange and does not hold waste disposer.

Decorative Plastic Garbage Disposer Flange with Stopper for Granite Sinks

BWDUFG

Waste disposer trim in multiple colors to match your granite sink. Includes both flange trim and stopper-strainer. Will work with ISE Evolution disposer series and 3-Bolt Mount Disposers.

Unit is installed into existing flange and does not hold waste disposer.

Complete Stopper & Strainer Unit Waste Disposer Trim

MT120EV

The MT120EV is a complete strainer with collar that is compatible with continuous feed models only. This model only comes with the stopper lid and disposer flange; lift-out basket is not included.

This stopper/strainer unit works with the following waste disposer models:

- Insinkerator (ISE) - old & new models
- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Perfect Grind® 3-Bolt Mount
- For disposers with 3-3/8" I.D. and 3 bolt mounting

***NOTE: This item is not available in the "Brass" Finishes.**

3-in-1 Complete Stopper & Strainer Unit Waste Disposer Trim - Extended Flange

MT130

The MT130 is a complete strainer with collar that is compatible with continuous feed models only. This stopper lid with lift-out basket style is only available in the extended flange and may be installed on thinner sinks with the use of the 3 bolts provided.

This stopper/strainer unit works with the following waste disposer models:

- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Perfect Grind® 3-Bolt Mount
- For disposers with 3-3/8" I.D. and 3 bolt mounting

Waste Disposer Trim Collar with Matching Stopper

MT204

The MT204 is a disposer collar and stopper that is compatible with continuous feed models only.

This collar and stopper works with the following waste disposer models:

- Insinkerator (ISE) - old & new models
- Kenmore
- Maytag
- Ace
- Jenn-Air
- Kitchen Aid
- Whirlpool
- Mountain Plumbing 3-Bolt Mount
- For disposer with 3-3/8" I.D. and 3 bolt mounting

Waste Disposer Trim Collar

MT205

The MT205 is a disposer collar that is compatible with continuous feed models only.

Collar works with the same waste disposer models as MT204.

Waste Disposer Replacement Stopper

BWDS6818

- A replacement stopper for your waste disposer flange
- For continuous feed waste disposers only
- Fits ISE, Waste King Disposer Units, and Mountain Plumbing 3-Bolt Mount

Round Air Gap Unit (cover & body)

MT400U

Round air gap cover and body for dishwashers. Covers entire top of air gap body to eliminate any body show-through at the base!

- Dishwasher air gap with metal cover
- 1-3/8" hole required

Square Air Gap Unit (cover & body)

MT500U

Square air gap cover and body for dishwashers. Covers entire top of air gap body to eliminate any body show-through at the base!

- Dishwasher air gap with metal cover
- 1-3/8" hole required

Round Universal Air Gap Cover (cover only)

BAGCU

A round universal cover for dishwasher air gaps.

Square Universal Air Gap Cover (cover only)

BAGCUSQ

A square universal cover for dishwasher air gaps.

Little Gourmet hot water can quickly and safely warm baby food and bottles

Loosen Jar Lids

Place the top of a jar briefly under the Little Gourmet to aid in removing difficult to open jar lids

First Aid

Use Little Gourmet hot water to create a hot compress for quick pain relief

Remove Labels from Bottles

A quick run under Little Gourmet's hot water will remove labels and residue

Remove Wax

Instant hot water from the Little Gourmet is perfect for removing wax from candle holders

Melt Chocolate

Quickly create a double boiler with the Little Gourmet hot water to melt chocolate to perfection

Warm Cooking Utensils

Use the Little Gourmet to warm beaters for creaming butter, a knife for cutting cheeses, or for ice cream scoops

Reverse Osmosis Compatible:

Includes Stainless Steel Inlet, Stainless Steel Heating Coil, and Stainless Steel Tank

1300w Power

Compared to 750w for Insinkerator

Energy Efficient

Uses Less Energy than a 40w Light Bulb

2.5 Quart Tank Size

Equivalent to 5/8 Gallon

3 Year Warranty

Extended 4 Year Warranty when paired with any Mountain Pure® Filter

- Indicator Light
- Stainless Steel Housing
- Sensor Prevents Dry Start-Up
- Provides 190 °F Water Instantly
- 7 3/4" Wide x 12" High x 8" Deep

MOUNTAIN CHILL®

Water Chiller

Have you ever wondered what it would be like to have ice cold water anytime you want without having to wait for it to cool down? An instantly perfect cup of lemonade or ice tea made with the Mountain Chill® Water Chiller is the refreshing way to cool down on a hot summer day. Mountain Chill® hides cleanly and simply beneath the sink and provides 1.5 gallons (per hour) of crisp, cool water from your own faucet.

Having the Mountain Chill® Water Chiller in your home is the ultimate in convenience. When paired with the Mountain Pure® Filtration System, clean, pure, cold water can be yours to enjoy anytime day or night.

MT670-2

Chill On Demand

- Cools your water to between 41° to 50°
- Large 1/2 Gallon Stainless Steel Storage Tank
- Chills up to 3 Gallons Per Hour
- Lead Free
- Attaches to Accessory Faucet
- 16" Wide x 10-1/8" High x 11-3/4" Deep
- 3 Year Compressor Warranty
- C-UL-US, CE, CB Certification
- MT6LD Safety Valve-Leak Detector Included at No Additional Cost

FRONT VIEW

SIDE VIEW

Now Included with the Mountain Chill Water Chiller at No Additional Cost

Safety Valve-Leak Detector

MT6LD

A flood often happens without warning causing substantial flooding and severe property damage if undetected. Mountain Plumbing's safety valve-leak detector automatically shuts off the water source and sounds off an audible alarm (similar to a smoke detector) when moisture is detected.

- Automatically shuts off once water is detected
- Audio alarm when leak occurs
- Operates on 9V battery
- Quick connect 3/8" adaptors included for easy installation
- Use with Mountain Plumbing Little Gourmet® hot tank and/or Mountain Pure® filtration unit

Filtration Types

Point-of-Use (POU)

Compact units installed under the sink and paired with an accessory faucet, POU systems deliver fresh, filtered water right where you need it – for drinking, cooking, and everyday use. They're cost-effective, space-efficient, and ideal for the kitchen.

Full Flow Filtration

These systems connect directly to the main kitchen faucet, providing filtered water without a separate tap. Designed to maintain pressure and flow while removing impurities, full-flow systems offer convenient, complete filtration.

MOUNTAIN PURE®

Kitchen Filtration

Mountain Pure® delivers fresh, pristine water directly through your faucet – the pinnacle of everyday convenience. Access to clean, great-tasting water saves time, money, and reduces bottled water waste. Enjoy pure, safe water for drinking, cooking, and even washing when you install a Mountain Pure® filtration system in your home.

See Pages 51 - 52 for Products

MOUNTAIN PURE®

Whole House Filtration

Mountain Plumbing's Whole House Filtration systems provide clean, great-tasting water for every tap in your home. Installed at the water's entry point, these systems ensure that showers, sinks, and appliances all benefit from filtered water, not just the kitchen.

Engineered with advanced triple-action filtration, whole house filtration removes sediment, reduces chlorine and VOCs, and prevents scale – all while leaving beneficial minerals intact. With salt-free, eco-friendly operation and easy annual maintenance, Mountain's Whole House Filtration offers a healthier, more reliable water solution that protects both your family and your entire plumbing system.

12 1/2"

Mountain Pure® Point-of-Use Carbon Filtration System

MT1250XL

Mountain Pure® Carbon Filtration System comes with carbon filter cartridge that incorporates powder activated carbon and a bacteriostatic agent that protects it from bacteria growth. 1/4 Turn automatic shut-off valve, allows for easy replacement and eliminates the usual mess of replacing filters. Includes MT1250XL/RFC Filter.

Mountain Pure® Filter Features:

- More efficient and clog resistant - unique filter media created by attaching powdered activated carbon and lead absorbent material onto a cellulose-free synthetic fiber matrix
- Filter removes 99.9% of particles over .5 microns
- Filter incorporates an anti-microbial agent to reduce bacteria
- Anti-scale media for protection against scale build-up on the faucet and inside of the hot tank
- 1250 gallon capacity - lasts 1 year based on average usage
- Operates without wasting water like R.O. filters

Impurities Removed:
Prevents Scale
Chlorine
Bad Tastes/Odors
Chloramines
Dirt and Rust
Giardia Lambia Cysts
Cryptosporidium Cysts
Molds and Algae
Asbestos Fibers
99.9% of all particles .5 Micron or larger
Lead
Trihalomethanes
Volatile Organic Chemicals
Removes Turbidity
Removes Pathogenic Bacteria
PFAS (Per- and Polyfluoroalkyl Substances)
Other Benefits:
Leaves Essential Minerals Intact
Self Sterilizing
Leaves Natural Minerals such as Calcium, Magnesium, & Potassium
Automatic Shut-Off when Replacing the Cartridge

Mountain Pure® Replacement Cartridge (Fits Model MT1250XL)

MT1250XL/RFC

- Carbon replacement cartridge for MT1250XL water filtration system
- Filter Capacity = 1250 gallons
- Cartridges should be replaced once a year

Our **MT1250XL and MT3K-HF Filters** are independently tested and certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of chlorine (Standard No. 42) and lead (Standard No. 53).

Our **MT6K-HF Filter's** Chlorine & Lead reduction capacities are based on laboratory testing conducted using test protocols contained in NSF standards 42 and 53 respectively.

Mountain Pure® 3,000 Gallon Full Flow Filter System

MT3K-HF

Mountain Pure® Filter Features:

- 3,000 Gallon Capacity
- No additional faucet required
- Commercial grade plastic canister protects the filter system from splitting or bursting
- Reduces particles as small as 0.5 micron in size by mechanical means
- Retains vital minerals found naturally in water to ensure the health and delicious taste of your water
- Comes with a carbon filter cartridge that incorporates powder activated carbon and a bacteriostatic agent that protects it from bacteria growth.

MTWHF
WHOLE HOUSE

MTWHF-PRE
PRE FILTER

Mountain Pure® Whole House Filter

MTWHF

- ✔ **Advanced Triple Action Water Treatment (All in One Filter Cartridge):**
 - Depth Filter for 20 micron particle filtration:** Effectively removes particles down to 20 microns, such as dirt and rust. (5 microns with Pre-Filter)
 - Granular Activated Carbon:** Significantly improves taste and odor by filtering out chlorine and other impurities, and reduces Volatile Organic Chemicals (VOCs).
 - Salt-Free Softening & Scale Prevention:** Protects appliances by preventing scale buildup and corrosion from low pH/aggressive water.
- ✔ **Leaves Natural Minerals** such as Calcium, Magnesium, & Potassium.
- ✔ **Water Conservation:** No backwashing every week, which eliminates up to 6,720 gallons of water per year compared to some competitors' filters.
- ✔ **Septic Friendly:** No backwash water and does not add salt to your septic system.
- ✔ **Suitable for city or well water** that does not contain an excessive amount of particles.
- ✔ **Installation Flexibility:**
 - No electrical connection needed.**
 - No drain connection needed.**
 - Mounts on wall and not floor like most competitors.**
- ✔ **Performance:**
 - Max flow rate = 15 GPM; Best flow rate = 8 gpm.**
- ✔ **Maintenance:** Replace cartridges every 12 months
- ✔ **Legal Compliance:** Not subject to salt-softener bans or restrictions.
- ✔ **Certifications:** Components meet or exceed NSF/ANSI Certifications, NSF Standard 42, and NSF Standard 60.
- ✔ **System Recommendation:**
 - 1x Filter for households 1-5 persons.
 - 2x Filters for households of 6+ persons.

Mountain Pure® Whole House Pre-Filter

MTWHF-PRE

- ✔ **For High Sediment Water:** Designed to handle well water or municipal sources with elevated levels of sand, silt, rust, or other particulate matter, ensuring cleaner water enters the main filtration system.
- ✔ **Removes Sediments Down to 5 Microns:** Captures fine particles at the microscopic level, protecting plumbing fixtures and extending the life of the whole house filter cartridge.
- ✔ **Protects Main Filter:** Acts as a first line of defense, reducing the load on the primary whole house filter and lowering long-term maintenance costs.
- ✔ **Improves System Performance:** By removing larger particles upfront, the pre-filter allows the main filter to focus on reducing chlorine, VOCs, and preventing scale buildup.
- ✔ **Easy Cartridge Replacement:** Simple cartridge swaps keep the system running efficiently with minimal downtime.

REPLACEMENT CARTRIDGES

Mountain Pure® Whole House Replacement Cartridge

MTWHF/RFC

- Single Sump / Water Softener
- Replacement for MTWHF
- Replacement recommended every 12 Months

Mountain Pure® Whole House Pre-Filter Replacement Cartridge

MTWHF-PRE/RFC

- Single Sump / Water Softener
- Replacement for MTWHF-PRE

MOUNTAIN PLUMBING

Accessory Faucets

Mountain Plumbing's accessory faucets **bring both style and function to your sink.** Designed to pair seamlessly with our hot tanks, chillers, and filtration systems, these faucets deliver instant hot, cold, or purified water exactly when you need it.

With a variety of designs and finishes, accessory faucets not only provide everyday convenience but also complement your main kitchen faucet. The result is a coordinated look and a more versatile kitchen experience.

[View Product Feature Page](#)

FINISHES TO MATCH ANY STYLE

Accessory faucets are offered in a wide variety of finishes, making it easy to coordinate with your main faucet and overall kitchen design.

ACCESSORY FAUCET

Duet Finishes

Mountain's Duet Finishes bring together two complementary finishes on a single faucet, creating a bold contrast that highlights both color and texture. This distinctive design approach turns the faucet into a statement piece while still coordinating seamlessly with surrounding fixtures and accessories. Duet Finishes offer a versatile way to introduce personality and style into the kitchen or bath without sacrificing performance or function.

Available on MT1820, MT1830, and MT1840 Series Faucets

Knurled Accents Available!

Intricate diamond knurling adds richness and depth to the design of your faucet.

Available Base Finish:
Matte Black (MB)

Available Accent Finishes:
Brushed Nickel (BRN),
Polished Chrome (CPB),
Polished Nickel (PN),
Champagne Bronze (CHBRZ)

Fresh, Clean Water
Every Time.

FIL KITS

Mountain Plumbing's FIL Kits make installation **simple, consistent, and cost-effective**. Each kit is designed with all the essential parts included, eliminating the need to source components separately and ensuring everything works together seamlessly. This **saves time on the job, reduces guesswork for both professionals and homeowners**, and helps guarantee a successful installation every time. Reliable and convenient, FIL Kits deliver the same quality, precision, and durability you expect from every Mountain product - all in one easy package.

Household Lead: The Facts

Lead in drinking water accounts for 10-20% of human exposure. Major sources of lead in your drinking water could be found in your home's plumbing system. **Lead can leach into your water from pipes, solder, and faucets.**

High Blood Pressure

Lead can increase the risk of high blood pressure.

Kidney Damage

Lead can increase the risk of kidney damage.

Bone Damage

Lead can increase the risk of bone damage.

Risk to Pregnant Mothers

Lead can be a potentially fatal risk to pregnant mothers.

Homes built prior to 1986 may have 20% or more lead in their plumbing system. **Lead can be found in newer homes as well. Until June 2014, the legal limit for "lead-free" pipes was up to 8%.**

Hand Shower Components

Hand Shower

The spray head that brings flexibility and comfort to the shower. It can be held in hand for targeted rinsing or mounted for a traditional shower experience.

Hand Shower Hose

A durable, flexible connection between the water supply and the hand shower.

Waterway Elbow with Holder

Mounts to the wall to supply water and neatly cradle the hand shower when not in use.

Slide Bar or Shower Rail

Allows the hand shower to be adjusted in height and angle for multiple users.

Diverter

Lets you switch between the main showerhead and the hand shower, creating a versatile showering experience.

RRP (Rain Rail Plus)

An all-in-one system that integrates the slide bar, holder, and diverter for a simple, streamlined hand shower setup.

MOUNTAIN RE-VIVE™

Hand Showers

Mountain Plumbing's **hand showers bring comfort, convenience, and flexibility** to the bathroom. Designed to complement your main showerhead, they make everyday routines more versatile — from rinsing and cleaning to providing a spa-like experience in your home.

With a wide range of styles, finishes, and configurations, Mountain hand showers can be tailored to fit any bathroom design. Whether mounted on a rail for adjustable height or paired with the all-in-one Rain Rail Plus system, each setup combines **practical function with thoughtful design** details that elevate the shower as a whole.

MOUNTAIN PLUMBING

Rain Rail Plus

The Rain Rail Plus brings luxury and convenience to any bathroom remodel. **Designed with simplicity in mind, the Rain Rail Plus installs directly onto the existing single showerhead outlet**, eliminating the need for costly alterations to tile, plumbing behind the wall, or valve replacements. With just a straightforward surface-mount installation, your shower is instantly transformed into a customized dual outlet system.

Equipped with both an overhead rain shower and a versatile handshower, the Rain Rail Plus becomes **a spa-like experience without the need for a full renovation**. Offered in a variety of finishes, it blends modern design with practical installation, making it easy to upgrade both the look and performance of your shower.

Rain Rail Plus – Wall Mounted Shower Rail with Bottom Outlet Integral Waterway and Diverter

The Rain Rail Plus is the newest addition to the Mountain Re-Vive™ Shower Collection. The Rain Rail Plus is designed to make your bathroom remodel simple and effortless by avoiding unnecessary alterations to the tile, the plumbing behind the wall, or changing out the valve. Simply mount the Rain Rail Plus to the existing single showerhead outlet, and now your shower has transformed into a customized dual outlet showering experience equipped with rain head and handshower.

The Rain Rail Plus' adjustable slide rail bracket allows for easy height and angle adjustment to your handshower. Toggling between rain head and handshower functions is made easy with the diverter being located at the base of the rail.

- 3 Function Design (shower, handshower, or both on at the same time)
- Top water inlet to retrofit current shower setup
- Bottom diverter to switch from Showerhead to Handshower
- Brass Construction
- Handshower holder is adjustable in height and angle
- Swing Spout
- Mounting Hardware Included

- Handshower holder is adjustable in height and angle
- Mounting hardware included

MT8SRW

Kits vs. Components

Individual Parts

Perfect if you're replacing or upgrading part of an existing installation.

Complete Kits

Best for remodels or new builds where having all components packaged together simplifies the process.

Schluter® Adaptors

When Needed

Required if you are using a Schluter® shower pan or waterproofing system. These adaptors ensure Mountain drains integrate securely and perform leak-free.

When Not Needed

Standard installations that do not use Schluter® products.

ABS vs. PVC Drain Bodies

ABS (Black)

Lightweight, slightly more rigid, and solvent-welded with one-step cement. Often preferred in colder climates because of its resistance to impact at lower temperatures.

PVC (White)

Strong, smooth-walled, and joined with primer + cement. More common in warmer climates and widely specified by plumbing codes across the U.S.A.

Which to Choose?

Most homeowners simply match the material already used in their home's plumbing system. Contractors may choose based on local code requirements, climate, or installer preference.

MOUNTAIN RE-VIVE™

Shower Drains

Mountain Plumbing shower drains combine performance with design flexibility for today's bathrooms. Offered in square, round, and tile-in styles, these drains are engineered for reliable water removal while adding a modern architectural detail to the shower floor.

With multiple cover designs, finish options, and compatibility with Schluter® adaptors, **Mountain drains can be tailored to suit any project – from new construction to remodels.** Whether you are selecting an individual drain, building a kit, or integrating with a tiled shower system, Mountain provides solutions that simplify installation and elevate the finished look.

Deluxe Brass Shower Grid with Square Plate

MT231

Shower grid deluxe trim set consists of:

- One 4-1/4" square tile trim plate
- One 3-3/8" O.D. round grid
- Two screw holes are 2-7/8" C-C
- Includes 2 screws for installation

Fits Plumbing Products and 4T Drains.

4-1/4" Round Shower Grid - Mountain Plumbing, Oatey/Casper, Zurn

MT236

Shower grid features:

- 4-1/4" diameter O.D.
- Grid snaps in place for installation
- Grids are all brass, not stamped steel

Replacement shower grid fits Mountain MT237, Oatey/Casper, Sioux Chief, Zurn, and many other shower drains.

4" Round Shower Grid - "Plastic Oddities"

MT238

Shower grid features:

- 4" diameter O.D. with screw holes
- Two screw holes are 3-3/8" C-C
- Screws are included
- Grids are all brass, not stamped steel

Replacement shower grid fits "Plastic Oddities" shower drains.

4-1/4" Round Shower Grid - American Brass, Aluminum Foundry

MT240

Shower grid features:

- 4-1/4" diameter O.D.
- 2-7/8" prong to prong
- Grid snaps in place for installation
- Grids are all brass, not stamped steel

Replacement shower grid fits American Brass and Aluminum Foundry shower drains.

4-1/4" Round Shower Grid - "Plastic Oddities"

MT245

Shower grid features:

- 4-1/4" diameter O.D. with screw holes
- Two screw holes are 2-5/8" C-C
- Screws are included
- Grids are all brass, not stamped steel

Replacement shower grid fits "Plastic Oddities" shower drains.

4-1/4" Square Shower Grid

MT246

Shower grid features:

- 4-1/4" Square
- Two screw holes are 2-5/8" C-C
- Screws are included
- Grids are all brass, not stamped steel
- Fits ABA44603SQ

4" Square Solid Brass Grid Shower Drain

MT506-GRID

4" Square solid brass grid for shower drains.

- Includes Grid Only
- For use with MT605A or MT605P Drain Body

4" Round Solid Nickel Bronze Plated Grid Shower Drain

MT507-GRID

4" Round solid nickel bronze plated grid for shower drains.

- Includes Grid Only
- For use with MT605A or MT605P Drain Body

Our Complete Shower Drains Come In a Variety of Finishes to Match Every Fixture In Your Bathroom!

4" Square Complete Shower Drain - ABS

MT506A

Drain Features:

- 4" Square Grid
- Solid Brass Grid Top
- ABS Pipe
- Fits 2" Pipe

4" Square Complete Shower Drain - PVC

MT506P

Drain Features:

- 4" Square Grid
- Solid Brass Grid Top
- PVC Pipe
- Fits 2" Pipe

4" Square Complete Shower Drain - Cast Iron

MT506C

Drain Features:

- 4" Square Grid
- Solid Brass Grid Top
- Cast Iron Pipe
- Fits 2" Pipe

4" Square Complete Shower Drain - IPS Cast Iron

MT506I

Drain Features:

- 4" Square Grid
- Solid Brass Grid Top
- IPS Cast Iron Pipe
- Fits 2" Pipe

4" Round Complete Shower Drain - ABS

MT507A

Drain Features:

- 4" Round Grid
- Solid Nickel Bronze Grid Top
- ABS Pipe
- Fits 2" Pipe

4" Round Complete Shower Drain - PVC

MT507P

Drain Features:

- 4" Round Grid
- Solid Nickel Bronze Grid Top
- PVC Pipe
- Fits 2" Pipe

Shower Drain Body

ABS Rough - Use w/ MT506/507-GRID

MT605A

ABS drain body for solid nickel bronze grids from Mountain Plumbing.

- Fits 2" pipe ABS drain rough

Use with Mountain Plumbing shower drain:
MT506/507-GRID

Shower Drain Body

PVC Rough - Use w/ MT506/507-GRID

MT605P

PVC drain body for solid nickel bronze grids from Mountain Plumbing.

- Fits 2" pipe PVC drain rough

Use with Mountain Plumbing shower drain:
MT506/507-GRID

MT506C-ROUGH Shown

Shower Drain Body

Cast Iron Rough - Use w/ MT506-GRID

MT506C-ROUGH/CAST IRON (NO HUB)

MT506I-ROUGH/CAST IRON (2 IPS)

Cast Iron drain body for solid nickel bronze grids from Mountain Plumbing.

- Fits 2" pipe Cast Iron drain rough

Use with Mountain Plumbing shower drain:
MT506-GRID

MT501C-ROUGH Shown

Rectangular Shower Drain Body

Cast Iron, PVC, ABS Rough-In

MT501C-ROUGH/CAST IRON (NO HUB)

MT501P-ROUGH/PVC

MT501A-ROUGH/ABS

Allows for flexibility when installing in constrained spaces.

- Clamp down floor drain
- 2" no hub outlet (cast iron); 2" hub outlet (PVC, ABS)
- 2" throat
- 3.5" L x 4" W

MOUNTAIN RE-VIVE™

Your Spa, Your Style

Every detail of your shower comes together here - design, performance, and the feeling it creates. With Mountain's Re-Vive™ Collection, you can transform your daily routine into something extraordinary. Ultra-slim profiles, multiple finishes, and a range of styles let you choose the look that speaks to you, while dependable engineering ensures every shower delivers lasting comfort.

From refreshing mornings to relaxing evenings, Mountain helps you create a space that feels like your own retreat. Stylish enough to elevate your bathroom and durable enough for everyday use, our shower solutions strike the perfect balance of beauty and reliability. More than just a shower - it's the finishing touch that completes your space and prepares you for what comes next.

VALVES & STOPS

Reliable control where it matters most. Mountain valves and stops provide secure water shut-off with options in decorative finishes that look as good as they perform.

Valves

Valves are an essential part of every plumbing installation, controlling the flow of water to fixtures such as sinks, toilets, and appliances.

Installed at the supply line, they allow water to be quickly shut off for maintenance, repairs, or emergencies without needing to turn off the water to the entire home. By isolating each fixture, valves make service more convenient and minimize disruption.

Selecting the correct type of valve - and pairing it with the proper inlet connection - ensures not only smooth operation but also a secure, code-compliant installation. **Whether concealed beneath a vanity or exposed below a pedestal sink**, Mountain Plumbing valves combine dependable performance with the option for coordinated style.

Valve Types

Angle Stop Valves

Installed where the supply line comes through the wall, angle stops are the most common type used in bathrooms and kitchens.

Connects at a 90° angle, most often used for sinks and toilets.

Straight Stop Valves

Installed where supply comes up through the floor. They function like angle valves, but provide a straight connection to the fixture.

Operation Types

Ceramic Quarter-Turn Valves

Feature precision German-made ceramic cartridges for smooth operation and exceptional durability. The Flühs logo identifies Mountain's models that feature this functionality.

Standard Quarter-Turn Valves

Use traditional mechanisms, reliable for everyday use at a lower cost.

Inlet Types

1/2" Female IPS Inlets (Threaded)

Internally threaded to screw directly onto a 1/2" male iron pipe or nipple. A traditional and widely used connection.

Compression Inlets

Use a compression nut and ferrule to seal around copper or PEX tubing. No soldering or threading required, making installation quick and serviceable.

Sweat (Solder) Inlets

Designed for copper pipe, these valves are soldered in place with a torch. They provide a permanent connection but require more installation skill.

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free (Angle)

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Oval Handle Angle Valve

MT401-NL

Our oval handle angle valve is designed for a traditional look.

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Oval Handle Angle Valve

MT403-NL

Our oval handle angle valve is designed for a traditional look.

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free (Straight)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Oval Handle Straight Valve

MT410-NL

Our oval handle straight valve is designed for a traditional look.

Brass Oval Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Oval Handle Angle Valve

MT6001-NL

Our deluxe oval handle angle valve blends with traditional or contemporary.

Brass Oval Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Oval Handle Angle Valve

MT6003-NL

Our deluxe oval handle angle valve blends with traditional or contemporary.

Brass Cross Handle with 1/4 Turn Ball Valve - Lead Free (Angle)

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Valve

MT616-NL

Our cross handle angle valve is designed for a traditional look.

Brass Cross Handle with 1/4 Turn Ball Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Valve

MT621-NL

Our cross handle angle valve is designed for a traditional look.

Brass Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Valve

MT4001X-NL

Our cross handle angle valve is designed for a traditional look.

Brass Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Valve

MT4003X-NL

Our cross handle angle valve is designed for a traditional look.

Brass Deluxe Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Valve

MT4004X-NL

Our deluxe cross handle angle valve and flange is designed for a very traditional look.

- Includes flange

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Lever Handle Angle Valve

MT5001L-NL

Our lever handle angle valve is designed for a contemporary look.

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Lever Handle Angle Valve

MT5003L-NL

Our lever handle angle valve is designed for a contemporary look.

Mini Lever Handle with 1/4 Turn Ball Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Lever Handle Angle Valve

MT521-NL

Our mini lever handle angle valve is designed for a contemporary look.

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Straight)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Lever Handle Straight Valve

MT5120L-NL

Our lever handle straight valve is designed for a contemporary look.

Contemporary Round Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Round Handle Angle Valve

MT6004-NL

Our round handle angle valve is designed for a contemporary look.

Contemporary Square Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle)

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Square Handle Angle Valve

MT5004-NL

Our square handle angle valve is designed for a contemporary look.

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free

(Sweat - Angle)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Oval Handle Angle Sweat Valve

MT316-NL

This angle sweat valve is traditionally styled with a brass oval handle.

- Includes 5" sweat extension and bell flange

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free

(Sweat - Straight)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Oval Handle Straight Sweat Valve

MT317-NL

This straight sweat valve is traditionally styled with a brass oval handle.

- Includes 5" sweat extension and bell flange

Brass Cross Handle with 1/4 Turn Ball Valve - Lead Free

(Sweat - Angle)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Sweat Valve

MT629-NL

This angle sweat valve is traditionally styled with a cross handle.

- Includes 5" sweat extension and bell flange

Brass Cross Handle with 1/4 Turn Ball Valve - Lead Free

(Sweat - Straight)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Cross Handle Straight Sweat Valve

MT631-NL

This straight sweat valve is traditionally styled with a cross handle.

- Includes 5" sweat extension and bell flange

Brass Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Sweat - Angle)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Cross Handle Angle Sweat Valve MT416X-NL

This angle sweat valve is traditionally styled with a cross handle.
• Includes 5" sweat extension and 11/16" bell flange

Brass Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Sweat - Straight)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Cross Handle Straight Sweat Valve MT417X-NL

This straight sweat valve is traditionally styled with a cross handle.
• Includes 5" sweat extension and 11/16" bell flange

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Sweat - Angle)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Lever Handle Angle Sweat Valve MT516L-NL

This angle sweat valve is a contemporary styled valve with a lever handle.
• Includes 5" sweat extension and 11/16" bell flange

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Sweat - Straight)

1/2" Copper Sweat Inlet x 3/8" O.D. Compression Outlet

Lever Handle Straight Sweat Valve MT517L-NL

This straight sweat valve is a contemporary styled valve with a lever handle.
• Includes 5" sweat extension and 11/16" bell flange

Supply Kits

Mountain Plumbing supply kits **complete the connection between your shut-off valves and fixtures** with both reliability and style. Whether concealed inside cabinetry or exposed beneath a pedestal sink, the right supply lines ensure dependable performance and a polished finished look.

Available in a variety of lengths, materials, and finishes, Mountain **supply kits are designed to match valves, traps, and drains for a coordinated installation.** From flexible braided lines to rigid decorative supplies, each kit delivers the durability you expect with the option to elevate even the smallest details of your bathroom or kitchen.

Supply Kit Types

Lavatory Supply Kits

Include the supply lines needed to connect shut-off valves to a lavatory faucet. Available in flexible braided or rigid decorative styles, depending on whether the installation is concealed or exposed.

Lavatory Supply Kits with Trap

A coordinated package that provides both the water supplies and the decorative trap. Ideal for pedestal sinks or other exposed installations where a matching, finished look is desired.

Toilet Supply Kits

Include the supply line and components needed to connect the shut-off valve to the toilet's fill valve. Offered in a range of lengths and finishes to suit both functional and decorative requirements.

Part Types

Supply Tubes

The actual lines that deliver water from the shut-off valve to the fixture. Available in rigid brass for exposed use or flexible braided for concealed installations.

IPS Pipe Nipples

Short threaded pipe sections used to extend or adapt supply connections. Common in rigid decorative supply setups.

Flanges

Decorative escutcheons that cover the hole where the supply line exits the wall or floor, providing a neat, finished appearance. Available in multiple finishes to coordinate with valves and traps.

Cover Tubes

Decorative sleeves that conceal the rough supply tubing. Used in exposed installations to achieve a clean, uniform look.

Rigid Supply Tubes for Lavatory Connections Bull Nose Risers

MT432X

Bull Nose Supply Tube For Lavatory - 20" with Metal End Piece

MT432X

Bull nose supply tube risers with metal end piece for lavatory connections.

- Rigid Supply Tube
- 3/8" O.D. x 20" Long
- Available in 20" only
- Lead Free Material
- Can be hand formed for installation, but a spring bender is recommended
- NSF/ANSI/CAN 61: Q ≤ 1

MT4321X

Bull Nose Supply Tube For Lavatory - 30" with Metal End Piece

MT4321X

Bull nose supply tube risers with metal end piece for lavatory connections.

- Rigid Supply Tube
- 3/8" O.D. x 30" Long
- Lead Free Material
- Can be hand formed for installation, but a spring bender is recommended
- NSF/ANSI/CAN 61: Q ≤ 1

Rigid Supply Tubes for Toilet Connections Flat Head Risers

Flat Head Riser Supply Tube For Toilet - 12"

MT435X

Flat head supply tube risers with plastic end piece for toilet connections.

- Rigid Supply Tube
- 3/8" O.D. x 12" Long
- Lead Free Material
- Can be hand formed for installation, but a spring bender is recommended

Flat Head Riser Supply Tube For Toilet - 20"

MT436X

Flat head supply tube risers with plastic end piece for toilet connections.

- Rigid Supply Tube
- 3/8" O.D. x 20" Long
- Lead Free Material
- Can be hand formed for installation, but a spring bender is recommended

Flanges - Low Pattern & Brass Bell

MT441X

MT442X

MT443X

MT445X

Flat Sure Grip Brass Flange

MT441X

A flat sure grip brass flange to fit over 5/8" O.D. copper tube.

- 5/8" I.D. x 2-1/2" O.D. x 13/32" HT

MT442X

A flat sure grip brass flange to fit over 1/2" IPS.

- 13/16" I.D. x 2-1/2" O.D. x 13/32" HT

Brass Bell Sure Grip Brass Flange

MT443X

A brass bell sure grip flange to fit over 1/2" IPS pipe nipples.

- 13/16" I.D. x 2-13/32" O.D. x 1-1/8" HT

MT445X

A brass bell sure grip flange to fit over 5/8" O.D. copper tube.

- 5/8" I.D. x 2-13/32" O.D. x 1-1/8" HT

Lead Free Pipe Nipples

6" Pipe Nipple - 1/2" IPS

MT448X-NL

A lead free, all brass pipe nipple for 1/2" IPS.

- To be used with IPS applications
- 1/2" IPS x 6"

4" Pipe Nipple - 1/2" IPS

MT450X-NL

A lead free, all brass pipe nipple for 1/2" IPS.

- To be used with IPS applications
- 1/2" IPS x 4"

Cover Tube

Brass Cover Tube & Flange

MT4390X

Cover tube for O.D. Compression x O.D. Compression

- 6" cover tube that can be cut to size
- Covers 1/2" copper stub
- Includes Flange

- 2 - MT442X Sure Grip Flanges

1/2" Female IPS Inlet x 3/8" O.D. Compression Outlet

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Angle - No Trap)

Lever Handle (valve MT5003L-NL)

MT5930L-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our lever handle angle valve is designed for a contemporary look.

- 2 - MT5003L-NL Angle Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes
- 2 - MT441X Sure Grip Flanges

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Mini Lever Handle with 1/4 Turn Ball Valve - Lead Free

(Angle - No Trap)

Lever Handle (valve MT521-NL)

MT493BL-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our lever handle angle valve is designed for a contemporary look.

- 2 - MT521-NL Angle Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes
- 2 - MT441X Sure Grip Flanges

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Contemporary Round Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free

(Angle - No Trap)

Round Handle (valve MT6004-NL)

MT6931-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our round handle angle valve is designed for a contemporary look.

- 2 - MT6004-NL Angle Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Contemporary Square Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free

(Angle - No Trap)

Square Handle (valve MT5004-NL)

MT5931-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our square handle angle valve is designed for a contemporary look.

- 2 - MT5004-NL Angle Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Lavatory Supply Kit - Straight
No Trap

Brass Oval Handle with 1/4 Turn Ball Valve - Lead Free

(Straight - No Trap)

Oval Handle (valve MT410-NL)

MT4127-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our oval handle straight valve is designed for a traditional look.

- 2 - MT410-NL Straight Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes
- 2 - MT441X Sure Grip Flanges

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Contemporary Lever Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Straight - No Trap)

Lever Handle (valve MT5120L-NL)

MT5121L-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. Our lever handle straight valve is designed for a contemporary look.

- 2 - MT5120L-NL Straight Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes
- 2 - MT441X Sure Grip Flanges

1/2" Compression (5/8" O.D.) Inlet x 3/8" O.D. Compression Outlet

Lavatory Supply Kit - Angle Sweat
No Trap

Brass Cross Handle with 1/4 Turn Ceramic Disc Cartridge Valve - Lead Free (Sweat - Angle - No Trap)

Cross Handle (valve MT416X-NL)

MT8122X-NL

Complete Lavatory Supply Kits include everything you need to install your bathroom lavatory sink. This angle sweat valve is traditionally styled with a cross handle.

- 2 - MT416X-NL Angle Sweat Valves
- 2 - MT432X 3/8" x 20" Rigid Supply Tubes

Choosing the Right Drain

Grid Drain

A fixed strainer-style top with small openings that allow water to flow while preventing debris from entering the drain. Ideal for vessel sinks without overflow.

Stationary Dome Drain

A permanent domed cover that allows continuous water flow while concealing the drain opening. This style offers a clean, finished appearance and is ideal for sinks where a simple, always-open drain is preferred.

Push-Button / EZ-Click™ Drain

A modern alternative that opens and closes with a simple press on the drain cover. Sleek and easy to use, perfect for contemporary bathroom sink designs.

Fast Flow Drains

The patented “Fast Flow Angle Top” is engineered to prevent clogging and reduce puddling in vessel sinks. These drains are designed to allow water to move quickly and efficiently — keeping sinks clear, dry, and spotless.

DECORATIVE

Lavatory Drains

Lavatory drains may be small, but they play a vital role in both function and design. Every sink requires a drain that manages water flow reliably, and when visible, it also contributes to the overall aesthetic. Mountain Plumbing decorative drains blend performance with style, ensuring even the finishing details feel complete and intentional.

From grid drains for vessel sinks to pop-up and specialty designs, each is engineered for smooth operation and long-lasting durability. Options like patented Fast Flow Angle Tops help reduce pooling, while a wide range of finishes allows you to coordinate with faucets, traps, and supply kits. With Mountain Plumbing, what’s beneath the surface is just as polished as the fixtures above.

20 Hole Brass Lavatory Grid Drain - 6" Tailpiece

A decorative, fully plated, 20-hole brass lavatory grid drain for sinks and vessels with & without overflow.

- Patented "Fast Flow Angle Top"
- No clogging or puddling of water
- Eliminates water spots
- Tailpiece measures 6" Long x 1-1/4" O.D.
- Drain Opening 1-1/2" diameter
- 2-1/2" Threaded Drain Body
- IAPMO (UPC) Approved

MT730-2 (with Overflow)

MT740-2 (without Overflow)

20 Hole Brass Lavatory Grid Drain - 8" Tailpiece

A decorative, fully plated, 20-hole brass lavatory grid drain for sinks and vessels with & without overflow.

- Patented "Fast Flow Angle Top"
- No clogging or puddling of water
- Eliminates water spots
- Tailpiece measures 8" Long x 1-1/4" O.D.
- Drain Opening 1-1/2" diameter
- 2-1/2" (MT734) & 4" (MT735) Threaded Drain Body
- IAPMO (UPC) Approved

MT734 (with Overflow)

MT735 (without Overflow)

Tear Drop Pattern Lavatory Grid Drain

A teardrop pattern lavatory drain for sinks and vessels with overflow. Fully plated brass drain body and tailpiece.

- Tailpiece measures 8" Long x 1-1/4" O.D.
- Drain Opening 1-1/2" diameter
- 4" Threaded Drain Body

Finger Touch Lavatory Drain

A finger touch lavatory drain for sinks and vessels with overflow. Fully plated brass drain body and tailpiece. Features round flip drain that opens and closes.

- Tailpiece measures 8" Long x 1-1/4" O.D.
- Drain Opening 1-1/2" diameter
- 4" Threaded Drain Body

MT743-3 (with Overflow)

MT743 (without Overflow)

12" Lavatory Drain Tailpiece - Threaded on Both Ends

MT326TP

A 1-1/4" x 12" tailpiece threaded on both ends. Replacement for shorter tailpieces on most manufacturer's lavatory drains with a threaded tailpiece.

- 17 Gauge Tailpiece
- 1-1/4" - 27 Threads on both ends
- May be cut to appropriate size.

Slip Joint Tailpiece Extension Tube for Lavatory Drains

MT328SJ

A 1-1/4" x 8", 17 gauge Slip Joint Tailpiece Extension Tube for standard P-Traps.

- Compatible with all Mountain Plumbing lavatory drains as well as those from most other manufacturers.

Solid Brass Spacer with Washer for Glass Sinks

MTDISC

Spacer disk for use with vessels for countertop installation.

- 2-3/4" O.D. X 1-3/4" I.D. X 5/8" High
- 1-3/4" hole required in glass sink

European Slip Joint Tailpiece Extension Tube for Lavatory Drains

MT329ESJ

Our European Slip Joint Tailpiece Extension Tube for Lavatory Drains is designed to adapt euro-style lavatory drains to connect to 1-1/4" P-Traps.

- Comes with 1-1/4" BSP thread
- Tailpiece measures 4-3/4"

LAVATORY TRAPS

Trap Types Explained

P-Trap

The most common style, shaped like the letter “P,” this trap uses a water seal to block odors. Available in both 1-1/4” and 1-1/2” sizes, it’s a versatile choice for most lavatory sinks.

Bottle Trap

Compact and modern, the bottle trap is ideal for exposed installations where space is limited or aesthetics are important. Its cylindrical shape hides the trap under a wall-mounted or pedestal sink.

Massachusetts / New England P-Trap

Specifically designed to meet plumbing code requirements in the Commonwealth of Massachusetts and similar jurisdictions. These traps typically include clean-out access and come with the necessary adaptors and flanges for secure installation.

Space-Saving Trap

Designed to maximize under-sink storage by redirecting the trap closer to the back wall, making it a practical choice in smaller bathrooms or cabinetry installations.

DECORATIVE

Lavatory Traps

Lavatory traps are a vital part of every sink installation, combining dependable performance with refined design. More than just a code requirement, traps prevent sewer gases from entering the bathroom while also adding a polished look to exposed plumbing. Because they are often visible in wall-hung or pedestal sink applications, the right trap brings both function and style to the space.

Mountain Plumbing offers a wide range of trap styles. With multiple sizes and a full palette of decorative finishes, Mountain Plumbing traps allow you to coordinate every detail of the bathroom while ensuring safe, durable performance.

1-1/4" P-Trap - Traditional Style with High Box Flange

MT3140

A traditionally styled 1-1/4" x 1-1/4" Lavatory P-Trap.

- 17 gauge brass (P-Trap)
- Includes High Box Flange

Consists of:

- 1 - MT301X 1-1/4" x 1-1/4" P-Trap
- 1 - MT314X 3" Diameter x 1-1/4" High Box Flange

1-1/2" P-Trap - Traditional Style with High Box Flange

MT3130

A traditionally styled 1-1/2" x 1-1/2" Lavatory P-Trap.

- 17 gauge brass (P-Trap)
- Includes High Box Flange

Consists of:

- 1 - MT302X 1-1/2" x 1-1/2" P-Trap
- 1 - MT313X 3" Diameter x 1-1/2" High Box Flange
- Includes reducing washer to fit 1-1/4" tailpiece

1-1/4" P-Trap - Traditional Style - No Flange

MT301X

A traditionally styled 1-1/4" x 1-1/4" Lavatory P-Trap.

- 17 gauge brass
- Flange not included - Use High Box Flange MT314X

1-1/2" P-Trap - Traditional Style - No Flange

MT302X

A traditionally styled 1-1/2" x 1-1/2" Lavatory P-Trap.

- 17 gauge brass
- Flange not included - Use High Box Flange MT313X
- Includes reducing washer to fit 1-1/2" x 1-1/4" tailpiece

Deluxe Decorative Bottle Trap

MT1000

Our traditional style decorative lavatory bottle trap for exposed applications.

- Patented design with a heavy cast brass body
- Fully plated drain with 17 gauge tube
- 1-1/4" x 1-1/4" trap with 9" drain tube
- Includes flange and reducer seal to attach 1-1/4" drain tube to 1-1/2" wall drain
- IAPMO (UPC) Approved

Comes with Clean-Out Plug

Round Style Decorative Bottle Trap with Clean-Out Plug

MT2000-2

Our round style decorative lavatory bottle trap for exposed applications.

- Fully plated drain with 17 gauge tube
- 1-1/4" x 1-1/4" trap with 11" drain tube
- Includes flange and reducer seal to attach 1-1/4" drain tube to 1-1/2" wall drain
- Drain body is 4-3/4" tall
- Patented feature eliminates long drain tubes from closing water seal

Square Style Decorative Bottle Trap

MT3000

Our square style decorative lavatory bottle trap for exposed applications.

- Fully plated drain with 17 gauge tube
- 1-1/4" x 1-1/4" trap with 9" drain tube
- Includes flange and reducer seal to attach 1-1/4" drain tube to 1-1/2" wall drain
- IAPMO (UPC) Approved
- This the first square bottle trap to be approved in the USA

New England/Massachusetts P-Trap

MT304X

A traditionally styled design that meets the requirements of the Commonwealth of Massachusetts plumbing codes. 1-1/2" Lavatory P-Trap with Clean-Out.

- 17 gauge brass
- 1-1/4" inlet x 1-1/2" PVC outlet
- Includes reducing washer to fit 1-1/4" tailpiece
- Trap includes cover tube for 1-1/2" PVC pipe and flange
- High Box Flange and PVC/ABS adaptors included
- MASS Approved
- IAPMO cUPC Approved

1-1/2" P-Trap - Traditional Style with Clean-Out Plug

MT305X

A traditionally styled 1-1/2" x 1-1/2" Lavatory P-Trap with Clean-Out.

- 17 gauge brass
- Flange not included - Use High Box Flange MT313X
- Includes reducing washer to fit 1-1/4" tailpiece

1-1/2" P-Trap - Traditional Style with Clean-Out Plug & High Box Flange

MT315X

A traditionally styled 1-1/2" x 1-1/2" Lavatory P-Trap with Clean-Out.

- 17 gauge brass
- Includes High Box Flange

Consists of:

- 1 - MT305X 1-1/2" x 1-1/2" P-Trap with Clean-Out
- 1 - MT313X 3" Diameter x 1-1/2" High Box Flange
- Includes reducing washer to fit 1-1/4" tailpiece

Waste Pipe for Deluxe, Round, & Square Bottle Traps

MT406

This 1-1/4" O.D. x 16" long waste arm is designed for the deluxe, round, and square bottle traps. Use when the standard supplied waste arm is too short for your application.

- 17 gauge brass
- Flange not included
- Use with lavatory trap model numbers MT1000, MT2000-2, and MT3000

1-1/4" & 1-1/2" High Box Flange

MT314X

A 1-1/4" high box flange for 1-1/4" I.D. P-Traps.

- 3" O.D. x 1-1/4" I.D. x 1-1/2" HT.
- High quality plated brass, not steel
- Available in multiple finishes

MT313X

A 1-1/2" high box flange for 1-1/2" I.D. P-Traps.

- 3" O.D. x 1-1/2" I.D. x 1-1/2" HT.
- High quality plated brass, not steel
- Available in multiple finishes

Space Saving Trap for Lavatory Sinks

MTSSTLAV

- By raising the tailpiece and redirecting the P-Trap to the back of the cabinet, you ensure maximum storage space.
- Kit includes everything needed to hook up a lavatory sink.

MOUNTAIN PLUMBING

Complete the Look

A beautifully finished bathroom isn't just about the main fixtures — it's the details that bring everything together. From traps and drains to valves and supply lines, each piece contributes to both function and style. When chosen carefully, these elements create a coordinated look that feels intentional from every angle, whether under a pedestal sink or in an exposed installation.

Mountain Plumbing makes it easy to achieve a cohesive design with products available in a wide range of finishes and styles. By combining valves, lavatory and toilet supplies, drains, and traps, you can ensure every visible detail works in harmony. It's the finishing touches that transform a functional installation into a polished design statement.

Details That Define the Look

Valves - Control the water supply to sinks and toilets. Available in angle, straight, and sweat installations, with decorative options to coordinate in exposed installations.

Lavatory Supply - Connect shut-off valves to the lavatory faucet. Offered in both flexible and rigid styles, with decorative kits to match traps and drains for a unified look.

Toilet Supply - Link the shut-off valve to the toilet fill valve. Visible in many installations, making finish choice important for a consistent bathroom aesthetic.

Lavatory Drains - Direct water from the sink basin into the plumbing system. Decorative designs and finish options allow drains to complement faucets, traps, and other hardware.

Lavatory Traps - Provide the essential water seal that prevents sewer gases from entering the bathroom. Decorative traps combine this function with coordinated finishes that complete the exposed sink installation.

TOILET TANK LEVERS

Small upgrades can have a big impact. Mountain toilet tank levers bring style to an everyday detail, with finishes and designs that coordinate with the rest of your bath.

MOUNTAIN PLUMBING

Don't Forget the Wax Ring

A reliable toilet installation starts with the details you don't always see. Wax rings create the critical seal between the toilet base and the waste pipe, preventing leaks and protecting against unwanted odors.

Mountain Plumbing wax rings are built for durability and dependable performance. Whether you're installing a new toilet or replacing an old seal, choosing the right wax ring ensures a secure connection that lasts for years. It's a small part of the job that makes a big difference in peace of mind.

Wax Ring

MT27WRB

Toilet Installation Kit includes:

- Wax Ring with Plastic Flange
- Use when installing toilets and bidets.

Wax Ring with Gasket

MT27TSK

Toilet Installation Kit includes:

- Wax Ring with Plastic Flange
- 1/4" Flange Extender
- 2 Brass Toilet Bolts
- 20" Braided SS Toilet Connector with CP Brass Ballcock Nut

BATH WASTE & OVERFLOW

Bath waste and overflow solutions ensure the details match the beauty of your space. Thoughtfully designed, they bring peace of mind and effortless comfort to every bath experience.

Immerse

The Mountain Plumbing “Immerse” feature allows you to have the most luxurious bathing experience you’ve ever had! It now comes standard on all Mountain Plumbing cable drains, allowing you to indulge in a more lavish bathing experience. The expertly engineered overflow has been developed for your tub to accommodate a near additional 2 inches of water. To fully take advantage of the immerse feature, simply fill your tub to the height you have been familiar with. Once seated and relaxed in your tub, the amount of displaced water will rise by approximately 2 inches and remain at this level. This additional water depth added to your tub will allow for you to be fully submerged, covering up your bare shoulders, and resulting in a more luxurious bath. It is the ultimate in getting the most out of your bathtub.

Water Level with Our Immerse Feature
• 2” Additional Soaking Room

Just look for the Immerse Icon!

Schedule 20 vs. Schedule 40

When choosing a bath waste & overflow, the type of pipe matters just as much as the style of the trim. Both Schedule 20 and Schedule 40 are available in PVC and ABS, and each has advantages depending on the application.

Schedule 20 (Thin-Wall)

Lightweight and easy to work with, Schedule 20 is common in residential tub installations. Because it's thinner, it's ideal when the piping will be concealed and only carries drainage water. It makes installation faster and simpler while meeting code in most residential settings.

Schedule 40 (Standard Thickness)

Stronger and more rigid, Schedule 40 is designed for durability and long-term reliability. It's often required in commercial or multi-family projects, and is the best choice for exposed installations where strength and appearance are important.

PVC vs. ABS

Both materials are approved for plumbing use. PVC is typically white, smooth, and solvent-welded with primer and cement, while ABS is black, slightly lighter in weight, and bonded with a one-step cement. Local code often dictates which is preferred in your area.

Always confirm with local plumbing codes whether Schedule 20 or Schedule 40 is required for your project.

Schedule 40 ABS & PVC Cable Operated Bath Waste & Overflow Drain with Patented Flexible Overflow Neck

Cable operated bath drain with control knob at overflow. Includes a solid brass or plastic molded trim kit. Schedule 40 pipe with brass parts and 1-1/2" drain with patented, flexible overflow neck conforms to any bathtub angle.

- Patented Flexible Overflow Control Neck
- Pipe not included
- Includes 1-1/2" Sanitary Tee
- Innovative DoubleFlex™ Design for Easy Installation

BWO40S61P2

- Schedule 40 PVC
- Fits 36" to 45" Tub Depths
- Cable Length 50"

Kit Components:

- BWO40S61P2
- TRIMM3

Available in multiple finishes to match every fixture in your bathroom!

Schedule 20 1-1/2" Tubular ABS Cable Operated Bath Waste & Overflow Drain with Patented Flexible Overflow Neck

Complete cable operated bath waste & overflow kit includes pipe with trim kit. Molded in ABS and polypropylene using brass components. Includes a solid brass or plastic molded trim kit.

- Schedule 20 1-1/2" Drain
- Patented Flexible Overflow Neck
- For Acrylic, Fiberglass, Cast Iron, Steel, and Whirlpool Tubs
- Can be cut to size by installer

For 12" to 22" Tub Depths ABS with Flexible Overflow Neck

BDR20S22-2

- Vertical Pipe 12" to 22"
- Horizontal Pipe 7" to 12"
- Cable Length 27"

Kit Components:

- BDR20S22-2
- TRIMM3

For 22" to 28" Tub Depths ABS with Flexible Overflow Neck

BDR20S27-2

- Vertical Pipe 22" to 28"
- Horizontal Pipe 7" to 12"
- Cable Length 39"

Kit Components:

- BDR20S27-2
- TRIMM3

For 22" to 28" Tub Depths ABS with Flexible Overflow Neck

BDR20S35-2

- Vertical Pipe 22" to 28"
- Horizontal Pipe 13" to 20"
- Cable Length 39"

Kit Components:

- BDR20S35-2
- TRIMM3

For 22" to 28" Tub Depths ABS with Flexible Overflow Neck

BDR20S45-2

- Vertical Pipe 22" to 28"
- Horizontal Pipe 22" to 27"
- Cable Length 39"

Kit Components:

- BDR20S45-2
- TRIMM3

For 26" to 33" Tub Depths ABS with Flexible Overflow Neck

BDR20S61-2

- Vertical Pipe 26" to 33"
- Horizontal Pipe 22" to 29"
- Cable Length 50"

Kit Components:

- BDR20S61-2
- TRIMM3

Available in multiple finishes to match every fixture in your bathroom!

Brass Body Cable Operated Bath Waste & Overflow Drain with Patented Flexible Overflow Neck

Complete cable operated bath waste & overflow kit includes pipe with trim kit. Includes a solid brass molded trim kit.

- 1-1/2" 17 Gauge Tube
- Patented Flexible Overflow Neck swivels and conforms to any angle bathtub

For 22" Tub

Brass with Flexible Overflow Neck

BDR20SBR22

- Vertical Pipe 12" to 22"
- Horizontal Pipe 7" to 13"

Kit Components:

- BDR20SBR22
- TRIMM3

For 27" Tub

Brass with Flexible Overflow Neck BDR20SBR27

- Vertical Pipe 22" to 27"
- Horizontal Pipe 7" to 13"

Kit Components:

- BDR20SBR27
- TRIMM3

Brass Body Cable Operated Bath Waste & Overflow Drain with Rigid Overflow Neck

Complete cable operated bath waste & overflow kit includes pipe with trim kit. Includes a solid brass molded trim kit.

- 1-1/2" 17 Gauge Tube
- Rigid Overflow Neck

For 22" Tub

Brass with Rigid Overflow Neck BDR20BR22

- Vertical Pipe 12" to 22"
- Horizontal Pipe 7" to 13"

Kit Components:

- BDR20BR22
- TRIMM3

For 27" Tub

Brass with Rigid Overflow Neck BDR20BR27

- Vertical Pipe 22" to 27"
- Horizontal Pipe 7" to 13"

Kit Components:

- BDR20BR27
- TRIMM3

Round Trim for All Cable Operated Drains

TRIMM3

Round trim is used for cable operated bathtub drains. Available in multiple finishes to match every fixture in your bathroom!

Available in Molded Plastic or Solid Brass.

Available in multiple finishes to match every fixture in your bathroom!

Handle for ADA Extension to TRIMM3

MTLEVTDL

Handle for ADA Extension to TRIMM3 round bathtub trim. TRIMM3 is used for cable operated bathtub drains. Available in Polished Chrome only.

Pressure Test Kit for Cable Operated Bath Drain

BDR/TESTKIT1

Pressure Test Kit for all ABS, PVC, & Polypropelene Schedule 20 and Schedule 40. Enables pressure testing of your cable operated bath waste drains. Use with Mountain Plumbing bath waste & overflows only.

Cable Operated Drain with Patented Flexible Overflow Control Neck - ABS or PVC - Pipe Not Included

BWO40S

Cable operated bath drain with control knob at overflow. Schedule 40 pipe with brass parts and 1-1/2" drain with patented, flexible overflow neck conforms to any bathtub angle. Overflow with swivel action using patented swivel ball joint. Drain comes in either ABS or PVC. Use with TRIMM3 Kit. Pipe not included. All installation hardware included.

Three Sizes Available in ABS (A)

- BWO40S22A2 (for 12" - 22" tub depth)
- BWO40S45A2 (for 23" - 36" tub depth)
- BWO40S61A2 (for 36" - 45" tub depth)

Three Sizes Available in PVC (P)

- BWO40S22P2 (for 12" - 22" tub depth)
- BWO40S45P2 (for 23" - 36" tub depth)
- BWO40S61P2 (for 36" - 45" tub depth)

Schedule 20 1-1/2" Tubular ABS Cable Operated Bath Waste & Overflow - Body Only - Patented Flexible Overflow Neck

BDR20S

Complete schedule 20 1-1/2" tubular bath drain with patented flexible overflow neck, molded in ABS using metal components. For use with TRIMM3 Kit. All installation hardware included.

Five Sizes Available:

- BDR20S22-2 (for 12" - 22" tub depth)
- BDR20S27-2 (for 22" - 28" tub depth)
- BDR20S35-2 (for 22" - 28" tub depth)
- BDR20S45-2 (for 22" - 28" tub depth)
- BDR20S61-2 (for 26" - 33" tub depth)

Cable Operated Bath Waste & Overflow - Body Only - Brass with Patented Flexible Overflow Neck

BDR20SBR

1-1/2" 17 gauge pipe, solid brass tub drain with our patented, flexible overflow to conform to any angle bath. Comes with factory sealed swivel overflow neck. Use with TRIMM3 Kit. A premium drain for those who want the best! Patent ball joint.

Three Sizes Available:

- BDR20SBR22 (for 12" - 22" tub depth)
- BDR20SBR27 (for 22" - 28" tub depth)
- BDR20SBR45 (for 22" - 28" tub depth)

Cable Operated Bath Waste & Overflow - Body Only - Brass with Rigid Overflow Neck

BDR20BR

1-1/2" 17 gauge pipe, solid brass tub drain with rigid overflow neck. Use with TRIMM3 Kit. A premium drain for those who want the best! Patent ball joint.

Two Sizes Available:

- BDR20BR22 (for 12" - 22" tub depth)
- BDR20BR27 (for 22" - 28" tub depth)

Economy Lift & Turn Style Bath Waste & Overflow Drain (Brass Body)

- 1-1/2" 17 Gauge Tube
- Brass body drain with 3" tailpiece
- Includes lift and turn trim kit
- Economy face plate has two exposed screws

HBDWLT22

- Vertical Pipe 20" - 26"
- Horizontal Pipe 5" - 14"

HBDWLT45

- Vertical Pipe 26" - 34"
- Horizontal Pipe 14" - 28"
- For Center Drain Tubs

Deluxe Lift & Turn Style Bath Waste & Overflow Drain (Brass Body)

- 1-1/2" 17 Gauge Tube
- Brass body drain with 3" tailpiece
- Includes lift and turn trim kit

- 2" Drain hole required
- Includes 5" threaded brass tailpiece

** BDWOF-VA13 is not compatible with the Tub Docking Station (BDWOF-DS, BDWOF-DSTRIM, BDWOF-DSNSTRIM, BDWOF-DSROUGH)*

FREESTANDING TUB

Docking Station

The Mountain Plumbing Tub Docking Station **makes installation easier, cleaner, and more secure.** By providing a dedicated mounting point for your bath waste and overflow, the Docking Station ensures precise alignment and lasting stability.

Engineered for efficiency and lowered risk of damage, it **simplifies the process for both plumbers and homeowners** by reducing guesswork and improving reliability. The result is a sleek, professional installation that enhances both the performance and the appearance of your freestanding tub system.

NO LIFTING. NO TILTING.
Simpler, Safer
Installations

How Does It Work?

Step 1: Install Deck Flange

Step 2: Measure distance from bottom of the tub to the floor; cut tail piece to length

Step 3: Slide tub and align drain holes

Step 4: Using the long tool, pull the tail piece to create seal underneath the tub

Step 5: Thread the trim through the drain hole and tighten with smaller tool

Step 6: Install the drain stopper

H2O Delivery - Mechanical

Tub Docking Station - Freestanding Tub Drain Rough-In with Trim - Complete Kit

BDWOF-DS

The Mountain Plumbing Docking Station is the ultimate solution to quickly and easily install a freestanding bathtub.

- EZ-Click™ tub drain with brass tailpiece
- ABS and PVC adapter kits included
- Asymmetrical metal deck flange provides easier installation in tight spaces
- Removable drain stopper allows for easier cleaning
- For freestanding tubs with integrated overflow and 2" drain hole

Docking Station Benefits:

- Easier to install when compared to similar products from our competitors.
- Does not require the tub to be placed on its side (which prevents the possibility of the tub being scratched).
- Product includes the drain; competitors sell this separately.
- Drain is removable after installation without removing the entire tub.
- Removable drain plug with hair catcher for easier cleaning.
- Plug top is removable to allow for easy access to snake the drain line.
- Tub can be water tested and then easily removed to store in a safe place to avoid damage.

Tub Docking Station - Trim Kit with Overflow

Only Compatible with the **BDWOF-DSROUGH**

BDWOF-DSTRIM

- EZ-Click™ tub drain with brass tailpiece
- All Tools for Trim Assembly
- Drain Comes with Overflow

Tub Docking Station - Trim Kit without Overflow

Only Compatible with the **BDWOF-DSROUGH**

BDWOF-DS-NSTRIM

- EZ-Click™ tub drain with brass tailpiece
- All Tools for Trim Assembly
- Drain Comes without Overflow

Tub Docking Station - Rough Kit

Only Compatible with the **BDWOF-DSTRIM**

BDWOF-DSROUGH

- Floor Rough
- PVC and ABS Adaptors

Tub Docking Station - Spacer

BDWOF-DS/SPACER

- This spacer is required for installation on tubs between 3/4" to 1-1/4" thick at the drain hole
- Not needed for tubs thicker than 1-1/4"
- Buna-N rubber seals against underside of tub

Installing a freestanding tub the traditional way isn't super complicated, but it is cumbersome and a lot can go wrong.

The Old Way

Must **tilt tub on side and lift** to connect tailpiece - **increases risk of scratches and cracks**

High damage risk when **lifting and lowering tub to install**

Lifting and lowering installation **requires more labor** and **adds cost** to project

Impossible to snake without **removing tub** completely to gain access

Docking Station Way

No tilting or lifting required to attach tailpiece before placing tub - **decreases risk of scratches and cracks**

Low damage risk because **no lifting or lowering** required for tub installation

Sliding tub into place to install **requires less labor** and **helps control cost** of project

Removable clicker drain allows easy access **to snake drain and clear clogs**

In stock and ready to ship as an innovative solution to quickly and easily install freestanding bathtubs whenever you make a purchase!

Simplify Product Selection and

Complete Your Design

We have created these easy-to-use Fixture Planning Diagrams for you to ensure nothing is forgotten in your project. Simply download and print the PDF's from our website as needed. Then choose all of the items for your project from our catalog or online, add the model numbers to your diagram, and order your products.

mountainplumbing.com/fixture-planning-diagrams/

Project Details

Add all project related details here to keep your project's purchasing process organized.

Detailed Diagrams

Each fixture's diagram shows all fixtures in light gray and Mountain Plumbing in dark gray to help put our products in context of where they go in your project's design.

Product Key

Each numbered list item is color coded depending if it is required or not required. This key shows which color signifies to make the question "what do I need?" easy to answer.

Product Order List

This lists the products from Mountain Plumbing available to accessorize your kitchen or bath fixture. The list is color coded so you know what is definitely needed and what you can add as optional accessories.

Additional Angles

When needed, we show additional angles to your fixture to show products available and give you the most confidence when planning your project with Mountain Plumbing.

How-To Use Fixture Planning Diagrams

Step 1	Identify the fixture you want accessorize. Download and print the Fixture Planning Diagram from our website: mountainplumbing.com/fixture-planning-diagrams
Step 2	Fill in the project details in the top right of the Fixture Planning Diagram. This helps keep your project organized.
Step 3	Review your fixture diagram and product list and circle the kitchen and bath products you want for your fixture.
Step 4	Use the Mountain Plumbing website and/or print catalog to browse and select your specific model numbers for each kitchen and bath product you wanted in step 3. Place each product's model number in the spaces provided on your Fixture Planning Diagram.
Step 5	All done! All that's left is to order your products from Mountain Plumbing and complete your design.

Mountain Plumbing Products – Online Retail Policies

MINIMUM ADVERTISED PRICE (MAP) POLICY

Effective immediately, Mountain Plumbing Products hereby establishes a Minimum Advertised Price of no more than **THIRTY percent (30%)** off the Suggested List Price of all Mountain Plumbing Products.

This policy only concerns the advertised price (after applying all applicable discounts) of Mountain Plumbing Products and does not set or limit the ultimate sales price to any consumer or purchaser of Mountain Plumbing Products. Mountain Plumbing Products may be sold at any price deemed appropriate by the dealer or reseller. While dealers and resellers may sell Mountain Plumbing Products at any price they deem appropriate, Mountain Plumbing Products only authorizes the use of its name, trademarks, product images and product descriptions in advertisements that include an advertised price that is equal to or greater than the Minimum Advertised Price.

This policy includes all forms of media advertising, including internet advertisements. Dealers and/or resellers may not list Mountain Plumbing Products on auction sites or websites with a “starting price” or “buy it now” price below the applicable Minimum Advertised Price.

Mountain Plumbing Products reserves the right, after making an investigation into any alleged or discovered violations, to cease shipments of all products to any dealer or customer advertising Mountain Plumbing Products below the Minimum Advertised Price.

Any products purchased in violation of Mountain Plumbing Products MAP policy will be deemed as sold as is and will not be eligible for warranty.

Please contact your local sales representative or Mountain Plumbing Products directly if you have any questions or concerns regarding this policy.

AUTHORIZED ONLINE RESELLER POLICY

Mountain Plumbing Products (“MPP”) is committed to protecting and maintaining its highly regarded brand and reputation for excellence, technology, and innovative solutions. Consistent with these commitments, Mountain has designed products that meet the discerning demands of the end consumer. MPP believes that certain sales, advertising and customer service practices are inconsistent with its competitive strategy for these products and for the Mountain brand image as an innovation and technology company.

An Authorized Online Reseller shall not advertise or sell Products on or through any website, online marketplace (including, but not limited to Amazon, eBay, Houzz, or Walmart Marketplace), mobile application, or other online forum without the prior written consent of Mountain Plumbing Products, granted through execution by MPP of the Mountain Plumbing Products eCommerce Sales Application and Agreement. Advertised pricing must comply with Mountain Plumbing Products’ MAP Policy, **THIRTY percent (30%)** off the Suggested List Price of all Mountain Plumbing Products.

If Reseller violates this Authorized Online Reseller Policy or Reseller falls out of good credit standing with MPP, MPP reserves the right to stop selling Products to Reseller and/or terminate Reseller’s status as an Authorized Reseller with written or electronic notice in MPP’s sole discretion. Other corrective action may include: removing special pricing programs, adjustment of sales discount, and suspension of purchasing from MPP.

If Reseller is interested in becoming an Authorized Online Reseller, Reseller must submit a Mountain Plumbing Products eCommerce Sales Application and Agreement, which shall be subject to approval by Mountain Plumbing Products in its sole discretion.

CA Prop 65 Warning

What is this warning label?

The label is a warning being provided by Mountain Plumbing Products to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as “Proposition 65.” Many products sold in California are required by law to carry the label. The following example label is included on packaging for Mountain Plumbing Product’s faucets, supply lines, and supply valves.

Attention California Residents:

 **WARNING:** This product can expose you to chemicals including Lead and Chromium (hexavalent compounds) which are known to the State of California to cause cancer and birth defects or other reproductive harm.”

We are providing Prop 65 warning labels simply to inform consumers that the product contains chemicals on the State of California’s Prop 65 list. Mountain Plumbing Products products that carry the Prop 65 label include components made with brass, which contains small but detectable amounts of lead—an element included on the Prop 65 chemical list and Chromium (hexavalent compounds) used in plating finishes.

Even though a product may be found to contain a Proposition 65-listed chemical, it does not mean that use of the product will cause cancer, birth defects or other reproductive harm. Nor does it mean that a product is unsafe. All Mountain Plumbing Products’ products meet or exceed the requirements of applicable product performance and safety industry standards, as well as the federal Safe Drinking Water Act. We are confident there is no health hazard associated with the installation or removal of Mountain Plumbing Products’ products.

What is California Proposition 65?

In 1986, California voters approved the Safe Drinking Water and Toxic Enforcement Act (known as “Proposition 65”). Proposition 65 is a “Right to Know” statute; its purpose is to make sure people are aware, before they purchase, that the product they come into contact with contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. The statute requires a warning label even if the amount of the chemical is miniscule.

The State of California has listed over 900 chemicals that must be disclosed under Prop 65. The list, which is updated annually, includes a wide variety of chemicals that can be found in many consumer products, such as kitchen utensils, footwear and handbags, exercise equipment, photo and scrapbook albums, luggage, and many other products (even foods and beverages).

Where can I find out more information about Proposition 65?

The State of California provides Proposition 65 information on the Office of Environmental Health Hazard Assessment website.

Why does Mountain Plumbing Products include this warning on its products?

We are providing Prop 65 warning labels to inform consumers that the product contains chemicals on the State of California’s Prop 65 list. It does not mean that a product is unsafe. All Mountain Plumbing Products’ products meet or exceed the requirements of applicable product performance and safety industry standards, as well as the federal Safe Drinking Water Act. The label simply ensures that Mountain Plumbing Products is in compliance with the State of California’s Prop 65 law for warning label requirements.

Why is this label included on my faucet if I don’t live in California?

Mountain Plumbing Products’ products are sold nationwide and in Canada. It would be considerably complex to determine which products will be ultimately sold or brought into California. Therefore, to ensure compliance with Proposition 65 requirements, we have decided to include these labels on applicable products, regardless of where they might be purchased or sold.

Terms and Conditions

Return Goods Authorization

- No returns of discontinued items other than defective items still under warranty will be allowed.
- All goods returned must have a return good authorization number (RGA#) attached with the product.
- Return authorizations must be requested in writing by fax, mail, or email (RGA@mountainplumbing.com) within 90 days of delivery and must include original PO#, Item #, and reason for return.
- If goods were ordered incorrectly, a 35% restocking charge will apply and the customer is responsible for return freight charges.
- No returns on special orders.
- If an item is returned as defective, and after inspection and/or testing is deemed not defective, a credit will still be issued but the customer is responsible for return freight charges and a 35% restocking fee.

Payment Terms

- Payment is due Net 30 Days after date of invoice.
- A service charge of 1.5% per month (18% APR) will be charged on all invoices outstanding over 30 days.
- No deductions for RGA's can be taken from payments until a credit memo has been issued by Mountain Plumbing.

Freight Terms

- Full freight allowed on net orders of \$1,000.00 per invoice within the continental United States.
- Full freight allowed on net orders of \$1,800.00 per invoice to Hawaii and Alaska.
- Full freight allowed on net orders of \$1,500.00 per invoice to Canada.

Pricing

- Due to increasing costs of brass and raw materials, prices and product modifications are subject to change without notice.
- Publisher assumes no responsibility for typographical errors.

Shortages

- Shortages must be reported by the customer within 3 business days of receipt of shipped PO.

Order Cancellations

- Orders may be cancelled up to ship date.
- Once the order is shipped, a 35% restocking charge will apply if the goods are returned (RGA required).
- Customer is responsible for all return freight.

Approval of Orders

- All orders are subject to approval by Mountain Plumbing Products and must be submitted via fax or email (orders@mountainplumbing.com). NO PHONE ORDERS.
- Orders with special freight requirements (e.g. Next Day Air, etc) must be submitted prior to 2PM CST.
- Order modifications, including cancellations, can occur up to the time of shipment with an additional \$10.00 service charge if the order has already been processed.

“Mountain Reserve” - Product Selling

- Mountain Reserve is Mountain Plumbing's exclusive collection of refined, high-performance products.
- Includes the HydraOne™, Mountain CHILLED Glass Chillers, Phantom1™ Waste Disposer, and EMBER™ Digital Heating Tank
- **Available exclusively through authorized brick-and-mortar showrooms; online sales are strictly prohibited.**

MOUNTAIN PLUMBING LIMITED WARRANTY

1. LIMITED WARRANTY.

Subject to the Conditions, Exclusions, and Limitations set forth herein, Mountain Accessories, Inc. ("Mountain Plumbing") provides a Limited Warranty on all Mountain Plumbing products purchased from an Authorized Mountain Plumbing Retailer/Dealer ("retailer/dealer"). This Limited Warranty shall commence on the date of original purchase and shall expire:

- 1 year from the date of purchase for all working parts except as noted below.
- 3 years from the date of purchase for the Instant Hot Water Tank.
- 4 years from the date of purchase for the Instant Hot Water Tank when installed with Mountain Pure® Water Filter.
- 3 years from the date of purchase for accessory faucets.
- 3 years from the date of purchase for water chiller compressors.
- 3 years from the date of purchase for Mountain CHILLED Glass Chillers.
- 3 years from the date of purchase for 1/3 HP Model (ProSelect) Mountain Perfect Grind Waste Disposers.
- 5 years from the date of purchase for 1/2 HP Model (ProSelect) Mountain Perfect Grind Waste Disposers.
- With the life of the product for 5/8 HP, 3/4 HP, and 1 1/4 HP Model (STEALTH) and 1 HP Model (Phantom) Mountain Perfect Grind Waste Disposers.

Finishes on Mountain Plumbing products are warranted from the date of installation and shall expire:

- With the life of the product for all PVD finishes if instructions are followed properly.
- With the life of the product for all Xenoy molded products.
- 1 year from the date of installation for all other finishes if instructions are followed properly.

FAILURE TO FOLLOW APPLICABLE INSTRUCTIONS VOIDS THE WARRANTY FOR ALL FINISHES.

THE USE OF PLUMBERS PUTTY ON MOUNTAIN PLUMBING PRODUCTS VOIDS THE WARRANTY FOR ALL PRODUCTS. A NON-ACID OR NEUTRAL CURE CAULK IS RECOMMENDED.

MOUNTAIN PLUMBING INSTANT HOT TANKS MUST BE USED WITH AN OPEN VENT FAUCET. THE USE OF A NON-VENTED FAUCET WILL DAMAGE THE TANK AND VOID THE WARRANTY. LIKEWISE, THE WARRANTY FOR INSTANT HOT FAUCETS IS VOID IF CONNECTED TO A TANK WHICH IS NOT AN OPEN VENT TYPE.

2. WHAT WE WILL DO.

In the event your Mountain Plumbing product fails as a result of a defect in manufacturing, materials or workmanship within the applicable Limited Warranty period, Mountain Plumbing, at its option, will: (1) provide replacement parts to the Mountain Plumbing retailer/dealer you specify; or (2) repair the existing product at no cost to you, except as set forth herein; or (3) refund the original purchase price or retailer's/dealer's price at the time of the original purchase, whichever is less. Replacement parts or repairs are warranted for the remainder of the original Limited Warranty period. Labor and shipping charges are not covered under the Limited Warranty.

If Mountain Plumbing replaces or repairs the existing bath waste and overflow product, and an access panel is not available, the costs for accessing the bath waste and overflow is not covered under the Limited Warranty. This includes but is not limited to any tile work that has to be replaced in order to replace or repair the bath waste and overflow.

Mountain Plumbing reserves the right to discontinue or modify its products at any time without notice. In the event that repair or replacement of a product pursuant to this Limited Warranty is not possible, Mountain Plumbing will fulfill any repair or replacement obligation under this Limited Warranty with a product of equal or greater value.

3. WARRANTY CLAIM PROCESS (for building owners and homeowners only).

To make a claim under the Limited Warranty, you must notify the Mountain Plumbing retailer/dealer who supplied you with your Mountain Plumbing product. Unless otherwise specified in writing by Mountain Plumbing, all defective products must be returned to the Mountain Plumbing retailer/dealer to be forwarded to Mountain Plumbing for inspection and testing to determine of the cause of the alleged failure or defect.

If the retailer/dealer is unavailable or unknown to you, you may contact Mountain Plumbing at:

<https://mountainplumbing.com/warranty-claims/>

Warranty claims made directly to Mountain Plumbing shall include written notification of the alleged failure of, or defect in, any Mountain Plumbing product, and must be received by Mountain Plumbing no later than thirty (30) days after detection of an alleged failure or defect occurring within the applicable warranty period. Written notifications should include a description of the failed or defective part or product, product model number (if available), date of purchase, date of installation, photo of the defective product, and description of the alleged product failure or defect. All products alleged to be defective must be made available to Mountain Plumbing for inspection and testing to determine the cause of the alleged failure or defect.

Upon receipt of a warranty claim notification through either the retailer/dealer or directly, Mountain Plumbing shall have ninety (90) business days in which to determine whether it acknowledges responsibility for any alleged defects in materials or workmanship and the appropriate course of action to be taken.

The foregoing Warranty Claim Process only applies to claims made by owners of residences and buildings in which the warranted products are installed. Mountain Plumbing retailers/dealers and other customers who purchased products directly from Mountain Plumbing should follow Mountain Plumbing's Return Goods Authorization Policy then in effect.

4. GENERAL CONDITIONS.

This Limited Warranty applies only if the Mountain Plumbing product:

- Is purchased from an Authorized Mountain Plumbing Retailer/Dealer.
- Is selected, configured and installed by a licensed plumbing contractor according to the current installation instructions provided by Mountain Plumbing, if applicable.
- Remains in its originally installed location.
- Shows no evidence of misuse, tampering, mishandling, neglect, accidental damage, modification or repair without the approval of Mountain Plumbing.
- Is installed in accordance with then-applicable building, mechanical, plumbing, electrical, and other code requirements.

The Limited Warranty does NOT cover product failure or damage due to:

- Improper installation or modification including adjustments or corrections due to improper installation.
- Components not manufactured or sold by Mountain Plumbing.
- Any abnormal operating conditions.
- Exposure to conditions beyond reasonable installed conditions including but not limited to temperatures and/or pressures that exceed limitations printed on the product literature or installation instructions.
- Delivery by others.
- Accidents.
- Acts of God.
- Normal wear and tear.

5. EXCLUSIONS.

The Limited Warranty set forth in this document is the exclusive warranty (whether written or oral) applicable to Mountain Plumbing products, and no individual is authorized to modify or expand this Limited Warranty. All warranty claims must be made during the applicable warranty period unless otherwise specified.

MOUNTAIN PLUMBING HEREBY DISCLAIMS ANY WARRANTY NOT EXPRESSLY PROVIDED HEREIN, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. MOUNTAIN PLUMBING FURTHER DISCLAIMS ANY STATUTORY OR IMPLIED WARRANTY OF HABITABILITY.

In the event the applicable consumer law prohibits the disclaimer of an implied warranty, the above Limited Warranty shall not extend the time period of any such implied warranty. Some states do not allow limitations for consumers on how long an implied warranty lasts, so the above limitation may not be applicable.

6. LIMITATION OF LIABILITY.

EXCEPT AS OTHERWISE EXPRESSLY STATED IN THIS LIMITED WARRANTY, MOUNTAIN PLUMBING FURTHER DISCLAIMS ANY RESPONSIBILITY FOR LOSSES, EXPENSES, INCONVENIENCES, AND SPECIAL, INDIRECT, SECONDARY, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR RESULTING IN ANY MANNER FROM THE PRODUCTS COVERED HEREUNDER.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not be applicable. This Limited Warranty gives you specific legal rights, and you may have additional rights which vary from state to state.
